

## PROPHET MADE BUTT OF JOKES AS WORLD FAILS TO COME TO END

### APOSTLE STANDS FIRM IN BELIEF OF COMING DOOM

Jokers Are Blamed for Failure by Rowenites To See Manifestations at Midnight of World's End.

### WIFE STILL HOPES FOR SIGN IN SKY

Brother Downs, "Patriarch of Yaphank," on Verge of Tears When Held Indoors.

BY RODNEY F. DUTCHER

East Patchogue, L. I., February 6.—Robert Reid, the prophet of doom, looked into the eastern sky at midnight for the first sign of the beginning of the destruction of the world. Practical jokers and photographers, exploding flashlights on all sides, blinded the prophet's eyes. He could not see the initial manifestation of the coming of the Lord for which he, his family and his followers had prepared for many months. About him, outside his little cabin, milled more than 300 men and women, shouting ridicule into the ears of Reid and his flock.

It was the supreme tragedy of Reid's life. He rushed madly about, seeking to gaze unhindered into the clouds, but the flashlights continued to explode and to blind him.

"They are making a joke of it," he screamed as the crowd surged about him.

The wife of the unfortunate, huddled man who had sold his house, his automobile and all his other property for a little more than one-tenth of its value, was calmer.

"The light is there, but we cannot see it because of the flashlights," she explained with resignation.

"There are clouds up there and we can't see the sign," Reid muttered. "But it is there."

His voice quavered as he elbowed his way through the laughing crowd into the cabin, his wife clinging faithfully by his side.

Reid Denied Sight.

Someone had released a toy balloon with a sparkler attached, but even this sight was denied to Reid because of the flashlights. Photographers, still shooting flashlight and creating more smoke and flame, were hot on the heels of the Reids as they entered their home.

Inside was Brother Willard Downs, of Yaphank, almost on the verge of tears because his two sons, Sammy and Jimmy, had kept him there and refused to let him out to "see the sign."

Outside were red lights carried on long poles by youths of the village. Reid's discouragement was not complete—he felt that the climax of the night probably was another blow in the program of chastisement arranged to prepare himself and his flock for the ascent into heaven, which, he believes, will follow within seven days, during which the earth will be destroyed.

As the strange group huddled in prayer—just as other scattered groups were huddling throughout the United States—a twelve foot cross, which may have been planted by the klu klux klan, was set ablaze in front of the door of the lonely little cabin on Scrub Oak Hill.

The blaze threw into relief a crowd of 200 men and women outside, including a few score yelling hoodlums from Hagerman who were armed with sticks and kept constantly pelting the Reid home with stones and lumps of mud.

The Hagerman gang uttered profane and obscene threats as their mud and stones whacked away against the cabin.

No sound came from within the little wooden shack, which Reid paid \$1,500 for several years ago and which he had sold Friday for \$154 to Antonio Fucoco, an unimpressive

### "Twin-Matching" Contest Solution to be Published

In order that the nearly 25,000 unsuccessful contenders in The Constitution's famous "Twin-Matching" contest may see where their errors were made, a picturization of the correct solution to the problem of matching the twins whose pictures were used in the event will be published in Sunday's Constitution.

Results in the contest were announced a short time ago, and the contest management since then has been engaged in preparing for publication a "correct answer." All contestants will be interested, and every one should arrange to secure his copy of

### The Sunday Constitution

## Waiting for the End

BY UNITED NEWS.

Cleveland.—As Mrs. E. H. Frey and her hundred followers ate a "fast supper" of fruits and vegetables, they were threatened with tar and feathers and a speedy departure from this vale of tears in any event.

"It's time to stop fooling the people. You and your bunch should be tarred and feathered," said a letter to Mrs. Frey. "We are going to send a gang to blow you to hell."

Valley Stream, L. I.—Sister Katherine Kennedy, leader of the local flock of believers, was ready for the end, but she was also prepared for continuation of the present scheme of things. She had a load of coal stowed in Friday and announced that if the prophecy did not come true, she would "never believe in Sister Margaret Rowen again."

Mount Carmel, Pa.—The Mount Carmel Unit requested all its delinquent subscribers and other debtors to call and pay their debts before midnight. "As we do not want to be compelled to chase all over hell collecting accounts."

Temperance, Mich.—Karl E. Danzeisen, a "true believer," sought to hasten things. He shot Mrs. Danzeisen twice and then, believing her dead, killed himself.

Philadelphia.—"It isn't my fault that she is acting this way," says Mrs. Mathilde Wright, mother of Mrs. Margaret Rowen, head prophetess of the "Reformed" Seventh Day Adventists, who originated the end-of-the-world prediction.

Bath, N. Y.—The prospective event left this territory cold. Residents here and in Springwater, N. Y., waited to be wafted aloft on clouds one day 82 years ago and were disappointed. So they just sat tight.

Valley Junction, Iowa.—This end-of-the-world business is contagious. Holy Rollers were holding a noisy religious demonstration here Friday, and City Marshal Jerry Brown, an impressive figure, entered the church after neighbors had complained of the racket.

There was a moment's tumult as Brown appeared in the doorway. But the Holy Roller leader took command of the situation.

"Amen," he shouted. "At last the great Jehovah has arrived!"

Chicago.—It's always sound business policy to hitch up advertising campaigns with current news items. "Can you use another quart to celebrate the end of the world?" was the selling "line" adopted by Chicago bootleggers Friday.

## BAN ON PISTOLS GIVEN APPROVAL OF MAYOR SIMS

Ordinance Should Have Great Effect in Reducing Concealed Weapon Menace, Says Mayor.

Official approval by Mayor Sims Friday afternoon of the ordinance regulating sale of pistols and ammunition in Atlanta marked the first step toward their complete abolition in Georgia.

The ordinance, which became effective immediately on being signed by the mayor, prohibits sale of any pistol or pistol ammunition except on permits voted by council and approved by the mayor.

Passage and approval of the ordinance followed the anti-pistol campaign inaugurated by The Constitution some time ago, which has won approval in every section of Georgia and is expected to result in state legislation. Newspapers of the state have been practically unanimous in following The Constitution's lead, and so many civic organizations and private individuals have joined in the fight that Macon already has passed an ordinance similar to the one in effect here, and several other cities are contemplating similar steps.

Big Moral Effect.

"The ordinance should have great effect in eliminating the pistol menace," Mayor Sims said in affixing his signature to the measure, "as it is the first step in abolishing them altogether. While the new law will not affect pistol sales except in the city, its moral effect should be far-reaching."

"Action by the legislature will have to be taken before pistols can be abolished entirely in Atlanta, as it now is possible to bring such weapons here from other cities, but the ordinance certainly should check the wave of crime here, and should reduce materially the number of pistol 'toters.'"

The measure, which was drawn and sponsored by Councilman John A. White, prevents sale of any single or double barreled pistols, revolvers, derringers, or other similar weapons except on permits from the mayor and council. An amendment by Councilman Harry York broadened the law to include ammunition for pistols.

Persons now wishing to purchase pistols or ammunition must apply to the city clerk, giving their name, age, and occupation. If council and the mayor approve the petition, the gun then can be purchased from any authorized dealer on presentation of the permit.

The law provides a fine of \$500, or

## LAWYERS TO ASK FOR INJUNCTION TO SAVE SLAYERS

Governor Walker Turns Down Plea for Respite and Only Hope Now Rests on Searcy's Action.

Following Governor Clifford Walker's refusal Friday to grant a respite of execution for Willie Jones and Geris Bloodworth, convicted slayers of Howard Underwood, who are under sentence to hang next Friday, attorneys for the youths, indicated that they would ask Judge W. E. H. Searcy, Jr., of Griffin, for another injunction to prevent the hanging until they can file a motion for retrial.

The attorneys appeared before Judge Searcy Wednesday with a bill of exceptions, claiming that the special term of court at which the new execution date was fixed was illegal, because it was called by Judge McLaughlin, of Columbus, who is disqualified in the case. Judge Searcy has not yet ruled on the bill of exceptions.

Grounds for the attorneys' plea to Governor Walker for a respite were affidavits to the effect that one of the trial jurors was related to Mrs. Howard Underwood, the widow of the traveling salesman who was killed and robbed by Jones and Bloodworth. The attorneys asked for a respite until a motion could be filed for a retrial in the next term of Taylor superior court.

The chief executive's order denying the respite follows:

"A second application for respite

## MAYOR ASKS 25 MORE POLICEMEN

Sims Writes Alderman Duvall Additional Officers Needed, Particularly at Night.

Immediate action of the finance committee of city council in providing money for 25 additional policemen was urged Friday in a letter from Mayor Walter A. Sims to Alderman W. B. Duvall, chairman of the committee. It is probable the matter will be taken up at a meeting early next week.

The mayor stated that although crime is far less rampant in Atlanta than in many other cities, additional policemen are needed, particularly at night. Twenty-five new officers, who would receive \$125 per month, would call for expenditure of \$31,250 during the remainder of the year.

Additional policemen were urged at the beginning of the year by Chief of Police E. L. Jett and Councilman Ed H. Inman, chairman of the police committee, but the finance committee was forced to cut the appropriation from the apportionment sheet.

## PRIVATE WATCHMAN GRILLED BY POLICE IN SISTERS' MURDER

Los Angeles, February 6.—S. O. Stone, private watchman, was arrested tonight for questioning in connection with the slaying of May and Nina Martin, 12 and 8 years old, sisters, found dead in a shallow grave here Wednesday, almost six months after they wandered away from home.

## Mayor Acts After Hearing From Sam F. Schlesinger, Head of Atlanta Jitney Association.

### APPEAL TO FULTON COURTS EXPECTED

Ordinance Goes Into Effect on March 8—Schlesinger Asks Mayor for Delay of Six Months.

The ordinance barring jitneys from Atlanta streets, passed by city council Monday, Friday afternoon was approved by Mayor Walter A. Sims, and will become effective March 8. Action of the chief executive was taken after a careful study of all provisions of the measure, and after he had granted a hearing to Sam F. Schlesinger, president of the Atlanta Jitney Bus association.

At the conference, the mayor said, Mr. Schlesinger admitted that jitneys eventually must go, but made known his plans to file a request that the ban be postponed for six months, with the possibility that his organization will ask an injunction to restrain the city from enforcing the ordinance. Efforts to locate Mr. Schlesinger or his attorney, former Mayor Key, Friday night were unavailing.

Ban Is Provided.

The ordinance provides that 30 days after date of passage, all jitneys be barred from streets where street car lines are operated; on streets within two blocks of and parallel to streets where there are car tracks; within the inner fire limits; and on certain streets designated by the ordinance as congested.

It does, however, allow operation of busses with a minimum seating capacity of 17 in sections not served by the street railway company. That clause would permit operation of bus lines to Sylvan Hills and Morningside subdivisions.

Such busses, however, must carry indemnity insurance of \$10,000 for injury to a single person, with a \$20,000 maximum for any one accident or collision, in addition to a \$1,000 policy for property damage resulting from accidents.

Council reserves the right, however, to license jitneys again in event service rendered by the Georgia Railway and Power company is deemed inadequate.

Mr. Schlesinger's plea, according to

## POLICE BALKED IN COLLEGE PROBE

Alleged Poison Murders Still Remain Deep Mystery After Days of Careful Investigation.

Columbus, Ohio, February 6.—(By the United News.)—The police confess they have reached what appears to be a stopping point in their investigation of the poison murders at Ohio State university.

After a day of tireless questioning and searching, investigators admitted they were still far from a solution of the mystery and that their way now was more obscure than ever.

This much is known: Two students are dead and six others are recovering from illness, the result of taking strychnine for medicine or aspirin. The deadly drug was given them at the dispensary on prescriptions calling for a cold cure; the capsules containing barium salts were adulterated with strychnine; the only strychnine in the dispensary was in an open bottle on the shelf, with approximately 150 grains, or enough to kill a small community of people, missing; origin of the bottle was traced to Dr. W. Keyser, of the School of Pharmacy, who issued it to some student whose name he did not recall, a year ago; the drug was for use in the pharmacy laboratory and should never have been taken to the student dispensary.

Beyond these facts investigators are unable to penetrate. Still clinging to the theory that some master mind with a "moronic complex" planned the poison desiring to kill no one in particular but just to kill, John J. Chester, police prosecutor, is still questioning the student pharmacists. This may require most of Saturday. Thus far no one has been questioned on whom the least suspicion rests, Chester said.

If a clew fails to appear from within the student group, the prosecutor will begin running down the possibility of an outsider entering the dispensary during the absence of students and professors.

Such a procedure would broaden the field of search and even further reduce the chances of determining the identity of the poisoner.

## ADOLPH OCHS WILL RAISE \$1,000,000 FUND TO AID BERRY SCHOOLS AT ROME

### ORDER TO PROBE ALUMINUM TRUST GIVEN BY STONE

Mellon Company Is Held To Violate Anti-Trust Laws—Supports Trade Commission Charge.

### EVIDENCE WANTED OF LATE ACTIVITY

Secretary Mellon Is Made Target of Attack by Fellow Member in Coolidge Cabinet.

BY RAYMOND CLAPPER.

Washington, February 6.—Attorney General Stone has ordered the department of justice to investigate the activities of the Aluminum Company of America since 1922. Under Stone's action, the department of justice supports the charges of the federal trade commission that the Aluminum company controls the American aluminum industry in violation of the anti-trust laws.

The family of Secretary of the Treasury Mellon controls the aluminum concern.

The inquiry of the federal trade commission ended in 1922.

Controls 90 Per Cent.

The department of justice says that the company controls 90 per cent of the raw materials supply and is in a position to do control the domestic price of sheet aluminum to utensil manufacturers. Thirty-four manufacturers are thus at the mercy of the aluminum company for material.

In advising the federal trade commission of his conclusions Friday, Attorney General Stone referred to the federal dissolution decree as follows: "It is apparent that during the time covered by your report, the Aluminum Company of America violated several provisions of the decree; that, with respect to some of the practices complained of, they were so frequent and long continued, the fair inference is the company either was indifferent to the provisions of the decree, or knowingly intended that its provisions should be disregarded, with a view to oppressing competition in the aluminum industry."

Mellon Retains Holdings.

This probably is the first time in history that a cabinet officer has found himself the target of a fellow cabinet member. Secretary Mellon retired as director of the company when he became secretary of the treasury. But he retains his holdings and is expected to resume his place as a director when he returns to private life.

The federal trade commission obtained this statement of management of the company from its president, Arthur V. Davis:

"The company really consists of A.

## POSTAL PAY BILL GETS COOLIDGE O.K.

House Measure Is Subject of Attack From Representatives of Direct Mail Association.

Washington, February 6.—President Coolidge let it be known today that he approves the postal pay bill increase bill drafted by the house postoffice committee.

Postmaster General New laid the views of his department with respect to the measure before the president at today's cabinet meeting, and it was described afterward as fairly satisfactory to the president.

Provisions of the house bill increasing rates so as to bring in more than \$80,000,000 annually and in making the increased pay for postal employees retroactive only to last January are considered by Mr. Coolidge as distinct advantages over the legislation recently passed by the senate.

The house bill, on the other hand, was attacked as representing "guess work" and as having been drafted without due regard to its effects on business, in a statement issued today by Richard H. Lee, general counsel for the Direct Mail association of the World.

Mr. Lee said it appeared that users of certain classes of mail would be required to pay a bonus, while other classes would be carried at a loss. The disruption to business in many lines, he said, would be great if the measure were passed as it stands, and many companies would be forced to align their whole selling costs and sales methods.

## Love Quarrel Causes Girl To Try Death

Automobile Is Wrecked While Victim Is Being Carried to Hospital.

A lovers' dispute; a dose of poison; a wrecked machine—and Miss Ruby Carr, 18, of 119 South Warren street, lies at the point of death in Grady hospital.

W. Wiley, of 35 West Lake avenue, told police he had been riding with Miss Carr and her sweetheart, Julian Hubbard, of East Point. He was driving and they were on the back seat.

"The two had been quarreling continuously since the ride began," Wiley explained. "and Ruby was in tears."

"We were riding down South Main street, in East Point, when the girl took a bottle of poison from her pocket and drained it before we could stop her."

Man Leaves Car.

"Hubbard jumped out of the car, saying he wouldn't go to the hospital. Ruby fell over in the back seat, groaning, and I headed the car for the hospital as fast as it would go."

"Nothing happened until I reached the intersection of Pryor and Edgewood. There a man stepped in front of the machine as I was turning into Edgewood."

"I gave the steering wheel a wrench. It refused to respond, and the car mounted the sidewalk and became wedged between a telephone post and a drug store."

A passing jitney picked up the two occupants and carried them to Grady hospital. Wiley was uninjured, but Miss Carr's condition is believed to be critical.

Ewing Has Narrow Escape.

J. Ewing, Atlanta attorney, narrowly escaped death when the machine was wrecked by leaping to one side. The car was going 35 miles an hour when it turned into Edgewood avenue and crashed, he declared.

An unidentified negro boy escaped with several minor scratches. He was seated on a trash can on the sidewalk, near the drug store. The car struck the can, hurling the boy several feet in the air. He left before police arrived.

Wiley was taken to police station by Call Officers Goode and Bullard, but was released after explaining the case to Acting Assistant Chief of Police C. P. Connolly.

## COLLINS BELIEVED BURNED TO DEATH

Crossed Wires Thought To Have Electrocuted Him If He Was Not Already Dead.

Cave City, Ky., February 6.—Floyd Collins may have been electrocuted in his rocky tomb, according to engineers at Sand Cave.

The engineers discovered late Friday that a high-voltage wire had crossed the wire which carries a string of lights into the cave, and is attached around Collins' neck. Due to the dampness, they say, it is more than possible that the higher current passed into the cavern wires.

Lieutenant Governor Denhardt immediately commanded the rescue squads to climb into the trees surrounding the pit and raise the highly-charged wire away from the cave area, but it was feared that the action might have been too late.

Rescue Is Remote.

Unless the workers strike an unknown cavern, it will probably be many days before they reach the entombed man.

The shaft must be timbered on account of the wet, muddy ground. Slips in the shaft have hampered workers, and after 27 hours of drilling, they have progressed only 17 feet.

This speed has been made under favorable conditions and, according to H. T. Carmichael, who is directing the work, the rescuers now face their hardest task.

A diamond drill was placed in the pit Friday to loosen the soft sandstone. A hoisting engine is being used to lift the dirt from the shaft, which is hauled over a tramway to a dump.

Gerald's Cause Trouble.

John Gerald, the pal of Collins, who went down into the pit 15 times in five days, declaring each time that he would bring Collins out alive, was escorted outside the military lines Friday night by Major W. H. Cherry, and told not to come back. He was charged with causing dissension among the rescue workers by claiming that their efforts were misdirected and of no value.

Mining engineers from the United States bureau of mines are preparing

## WILL RAISE MILLION FOR BERRY SCHOOLS

ADOLPH S. OCHS.

## SKULL OF DRIVER CRUSHED AS TRAIN WRECKS WAGON

Man Believed To Be W. L. Waldrop Reported Dying at Grady Hospital After Accident.

A man believed to be W. L. Waldrop, of Brown's Mill road, is dying at Grady hospital from concussion of the brain, a broken back and a broken leg and arm and possible internal injuries as the result of an accident in which the wagon he was driving was struck by inbound train No. 107, of the Central of Georgia railroad. The accident occurred early Friday night at the McDaniel street crossing.

Police investigations failed to locate names of any witnesses to the tragedy, except H. P. Puckett, engineer on the train, who declared that the victim drove his wagon onto the tracks before he had time to stop. He said that the accident was unavoidable.

The train was bound for Atlanta from Jonesboro at the time of the crash and had slowed up for the crossing, according to Conductor H. A. Floyd.

W. H. Lindsey, driver of the Hunter-Blanchard-Gartrell company automobile, rushed the injured man to Grady hospital in 10 minutes from the time of the accident.

The wagon was wrecked, but the horse was uninjured.

## PARK CONCESSIONS SUBJECT OF SUIT

Concessioner Asks Injunction Against City To Protect Alleged Five-Year Contract.

An injunction against Mayor Walter A. Sims, all members of the park committee of city council, and L. L. Wallis, general manager of city parks, restraining them from interfering with or declaring void contracts for concessions at Grant and Piedmont parks, was asked in superior court Friday by L. O. Beall, son of former Councilman J. A. Beall. The hearing was set for February 14 by Judge W. D. Ellis.

Beall holds a five-year contract for refreshment, boating and bathing suit concessions at both parks, awarded by the 1924 park committee, and charges that this year's committee is attempting to invalidate the contract.

The suit asks that city officials be enjoined from destroying stands now used by Beall in the parks; from advertising for new concession contracts and from declaring Beall's present contract void.

Terms of Contract.

Under the contract, which was signed May 12, 1924, Beall was given the concessions for a five-year term, and must pay \$2,500 annually for the Grant park concession, and \$1,100 for that at Piedmont park.

In the suit, Beall claims that he has been notified by Mr. Wallis that the stand now used for dispensing refreshments at Grant park will be de-

## GEORGIANS WILL BE ASKED TO GIVE \$100,000 OF FUND

Noted Publisher Tells Group of Prominent Atlantans Impressions of Rome Institution.

### GEORGIANS PLEDGE AID IN MOVEMENT

Plans To Present Fund to Mountain School on Its 25th Anniversary Celebration in 1927.

Adolph S. Ochs, publisher of The New York Times, Friday announced that he would raise \$1,000,000 for the Berry school at Rome, to be given the institution at its 25th anniversary celebration in 1927.

Mr. Ochs' statement was made to a group of representative Atlantans who were invited to meet the distinguished publisher at a luncheon at noon at the Capital City club, at which Clark Howell, Sr., was host. Of the \$1,000,000 Georgia will be asked to raise only \$100,000, that sum being matched through Mr. Ochs' offer at a ratio of 9 to 1.

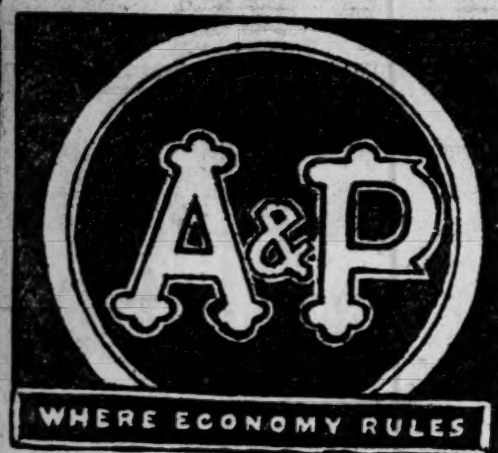

Visits Stone Mountain.

Friday morning Mr. Ochs visited Stone Mountain, where Gutson Borglum is carving a gigantic memorial to the Confederacy. He spent some time inspecting the work there, expressed his delight with the progress being made on the huge figures, and commented most favorably upon the idea which will perpetuate forever the memory of the south's dauntless courage in the war between the states.

He returned for the luncheon at noon and at 4 o'clock Friday afternoon was the central figure at an informal reception at the Biltmore, given in his honor by a group of personal friends, composed of leading Hebrew citizens of Atlanta. On Thursday night the publisher and members of his party were dinner guests of Mr. and Mrs. Clark Howell at their home, "Pine Hill."

Mr. Ochs was accompanied on his trip here by Mr. and Mrs. H. C. Adler, Mr. and Mrs. Adolph S. Ochs, Jr., and Mrs. Arthur Hayes Sulzberger, a daughter of the publisher. He and Mrs. Sulzberger left the city early Friday night for a trip to Jacksonville and Palm Beach

## New Advisory Hears Summary of Junior Red Cross Activities

A complete outline of the work of the Junior Red Cross was recently given before a new advisory appointed by the Atlanta chapter of the American Red Cross by Mrs. Louis J. Elsas, chairman of the organization, it is stated.

Mrs. Elsas has been for many months in charge of the work, which

began with an enrollment of every school of 100 per cent. The membership has been divided into two branches—the service and contribution—and the branches are often combined, the service membership being urged, Mrs. Elsas stated. Especially at the holiday times every institution in the city is benefited by the money and the work of the younger order, she added. A magazine, the official organ of the organization, "The Junior Citizen," is being sponsored by the woman's division of the Atlanta Chamber of Commerce.

## Conferees Finish Revision Of Underwood Shoals Bill And Will Present It Today

Revised Measure "Fairly Satisfactory" to President Coolidge—George Okchs Power Provisions.

Washington, February 6.—Conferees tonight completed the revision of the Underwood bill for lease of Muscle Shoals and plan to present it tomorrow to the senate and house.

The bill reported by the conference carries many changes, compared with the measure passed by the senate, and includes provisions of the McKenize bill adopted by the house authorizing lease of the property to Henry Ford. Fundamentally, however, it remains the original Underwood bill.

Senate and house managers are prepared to call it up for final vote as early as possible and they predict its passage without much difficulty.

**Fairly Satisfactory to Coolidge.** The bill, as reported by the conference, is held to be fairly satisfactory to President Coolidge, who would be authorized to lease the property. He holds some objections to the bill, but is represented as being prepared to accept it as drawn.

Senator Underwood, democrat, Alabama, author of the measure, declared he was pleased with the conference amendments and considered some of them as improvements over the original bill. Representative Almon, democrat, who represents the district in which Muscle Shoals is located, also said the measure meets his full approval.

**Fertilizer Section Rewritten.** The conference rewrote the fertilizer sections of the bill to require the operator to produce 10,000 tons of fixed nitrogen during the third year of the lease and 40,000 after the tenth year, with the president empowered to regulate production during the intervening years according to demand. After the tenth year and during the life of the lease, the operator would be required to produce a minimum of 40,000 tons of fertilizer annually, 2,000,000 tons of fertilizer annually.

A new provision was inserted, creating farm boys' camps, and of farm organizations to be appointed by the president, who would be authorized to inspect the books of the company to determine that not more than the allowed profit was charged for fertilizer and to suggest the allocation of the profit to the benefit of the farmer, unless an appropriation later was allowed by congress.

**Profit Raised to 5 Per Cent.** The profit to be allowed from fertilizer was raised from one per cent over the cost of production to eight per cent maximum profit over the "fair annual cost of production."

The time limit for the procurement of a lease before the government operation would begin was extended from September 1, 1925, to December 1, 1925.

The section requiring the operator to distribute for sale all power generated by the production of 40,000 tons of nitrogen was changed to provide that all power not needed for the production of this amount of nitrogen or for other useful products to reduce the cost of fertilizer shall be sold, provided that all such power shall be withdrawn after a reasonable notice, if it should be needed for the production of fertilizer.

**Rental Fixed at 4 Per Cent.**

The rental on the property was fixed at 4 per cent annually of the \$30,000,000 cost of dam No. 2, less such amount that may be charged properly to navigation and the costs of the locks estimated at around \$17,000,000.

Provisions also were made to allow deferred annual payments, provided the lessee used the amount of the deferred payment toward construction and other improvements for the production of fertilizer. After the sixth year, the lessee would be required to pay 4 per cent on the amount of the deferred payments then existing.

The president was authorized to use the \$3,472,478 received by the government from the Alabama Power company for the sale of the Gorgas steam power plant toward the cost of construction of dam No. 3, which the president is directed to construct at an estimated cost of \$27,000,000. When completed, this dam would be included in the provisions of the lease for dam No. 2 and the other property.

**Pay Fair Valuation.** At the end of the lease, or should the government find it necessary to take over the property, the bill provides the government shall pay the lessee a "fair valuation on only the

## Beauty Contest Aid to Movies

What beautiful and famous movie actress secured her start on the silver screen as the result of winning a southern beauty contest? The true movie fan can answer that question with little trouble. Can you? If you can't answer it, you should read "Blue Book of the Screen." If you can, there's a thousand other similar interesting, intimate facts about the lives of famous movie folk to be found in "The Blue Book of the Screen."

This beautiful volume is regularly priced at \$3, but under an offer made its readers by The Constitution, it can now be secured for only \$1 when accompanied by three coupons clipped from this paper. In this issue you'll find an advertisement describing the offer. Turn to it now.

## 20-YEAR ENDOWMENT RECEIVED BY WHITE

Councilman John A. White, well-known Atlanta real estate agent, served with distinction through the World War, Friday received from the United States government a paid up 20-year endowment insurance policy for \$157,000—the highest amount possible under the adjusted compensation act.

White entered the officers' training camp in Georgia on April 5, 1917, and was the first to receive a physical examination at the school. He was commissioned a second lieutenant August 15, 1917, and sent to France in June of the following year. He was promoted to first lieutenant in November, and on July 9, 1919, was made a captain. He fought in the Meuse-Argonne and Aisne-Marne-Oise battles.

At the end of the lease, the bill provides that all things being equal, the lessee would have the preferred right to renew the lease under terms to be determined by the president.

**Objections of Coolidge.** President Coolidge was represented as holding some objection to the provision for construction of dam No. 3, on the grounds that it would frustrate to a certain extent the administration's object to let the government own the Muscle Shoals property without any investment in it.

The executive is understood to be prepared to recognize that some concessions must be given to obtain enactment of legislation before the opening of congress, and it is pointed out that he is willing to yield this point.

The conference changes in the section regulating the distribution of power have been approved by Senator George, democrat, Georgia, who inserted this provision as an amendment to the Underwood bill. The Georgia senator declared his purpose in introducing the amendment was to assure the distribution of surplus power, with the hope that Georgia would benefit by it.

**UNION LABEL CAMPAIGN OF ONE YEAR APPROVED**

Miami, Fla., February 6.—(By the Associated Press.)—Approval of an organization for a one-year campaign for 52 consecutive weeks was given today by the executive council of the American Federation of Labor in session here and here.

The announcement of the project was made tonight by Frank Morrison, general secretary of the federation, in the following statement:

"This campaign is to promote the sale of the products of the members of organized labor and in that way secure the increased use of the union label upon all products produced by organized labor."

"This campaign will be carried on throughout the United States and Canada. The labor representatives feel that the carrying on of a campaign of this kind will bring the most satisfactory results."

"The pledge to continue the 'traditional patriotic policy of the American Federation of Labor' and to keep forever the 'creed and philosophy of Samuel Gompers'."

"The hosts of labor form an important factor in the public and private life of our nation," he said. "Labor must be considered in all our plans and must be treated fairly and righteously by all groups of society. Its rights must be recognized and its just demands must be conceded."

"The traditional patriotic policy of the American Federation of Labor will be continued and emphasized," President Green continued. "We shall reserve the right to condemn abuses in government, to point out its mistakes, to demand righteous and fair dealing toward the hosts of labor and to oppose both measures and policies inaugurated by the government which are contrary to public welfare and the public interest."

The new president closed with a tribute to the late Samuel Gompers.

"The hosts of labor form an important factor in the public and private life of our nation," he said. "Labor must be considered in all our plans and must be treated fairly and righteously by all groups of society. Its rights must be recognized and its just demands must be conceded."

## British Rulers Break Custom To Attend Kellogg's Dinner

London, February 6.—(By the Associated Press.)—The king and queen and a distinguished company of British and American were the dinner guests this evening of Ambassador and Mrs. Kellogg at Crewe House, their London residence.

Mr. Kellogg leaves soon to succeed Charles Evans Hughes as secretary of state.

The gathering at the American embassy was significant in more than a social sense, for it is seldom British majesties break bread at other tables than their own, and there is no recent instance of their having attended a formal dinner at the home of any diplomat assigned by a foreign nation to their court.

With the king and his consort at the Kellogg board sat the head of His Majesty's government, Prime Minister Stanley Baldwin, and the primate of his church, the archbishop of Canterbury, with their wives. From the continent, two prominent Americans crossed the English Channel to attend the dinner—Myron T. Herrick, American ambassador to France, and Seymour Parker Gilbert, agent-general for reparations payments, Mrs. Gilbert accompanied her husband.

The ambassador's table was set in the spacious and dignified dining hall of Crewe House and was decorated in flaming colored azuleos with tall silver candelabra.

Ambassador Kellogg gave his arm to the queen as the guests moved into the dining room, while Mrs. Kellogg was accompanied by His Majesty. Mrs. Kellogg wore a creation of a Parisienne designer, a gown of soft jade green chiffon velvet. An orchestra played softly throughout the dinner.

On February 16, the Kelloggs will be the guests at a formal reception at the home of Lady Astor.

was back in its box. "We find the defendant not guilty," the foreman said.

Women spectators jumped to chairs and waved handkerchiefs. A great wave of applause swept the courtroom.

Mrs. McCurdy was escorted from the courthouse by her children, to go back to her farm near Warsaw, where she has lived with her youngest son, Norman.

**MOTION FOR RELEASE OF EDWARDS IS MADE**

Bessemer, Ala., February 6.—A motion applying for the release of Dr. George T. Edwards on bond was filed today in the circuit court by his attorney, George Ross.

The hearing will be held Monday with Judge J. C. B. Gwin presiding. Solicitor Ben Perry announced that the state would protest the action.

Dr. Edwards has been in the Bessemer jail charged with murder since the morning of December 2. His trial last week resulted in a mistrial, the vote being 11 to 1 for acquittal.

Ross, in filing the motion for bail, said he was basing it on the result of the trial.

In less than a minute, the jury

was back in its box. "We find the defendant not guilty," the foreman said.

Women spectators jumped to chairs and waved handkerchiefs. A great wave of applause swept the courtroom.

Mrs. McCurdy was escorted from the courthouse by her children, to go back to her farm near Warsaw, where she has lived with her youngest son, Norman.

## DIRECTORS OF SHRINE END SESSIONS TODAY

Mobile, Ala., February 6.—Two business sessions, a barbecue luncheon at noon and a ceremonial in two sessions featured the second day of the annual meeting of the Shrine Directors' association here today. The afternoon session closed the main business of the body and most of the day Saturday will be devoted to pleasure.

This includes a boat trip, leaving Mobile at 9:30 o'clock Saturday morning and returning at 4 o'clock and the potentates' banquet at the Cawthon hotel.

The election of officers and selection of the next meeting place will feature the closing session. Lexington, Ky., and Los Angeles are the two main cities contending for the gathering.

The ceremonial, which was one of the interesting features of the gathering, took place at the Scottish Rite cathedral.

Arthur and Harry Edmondson, brothers, who escaped from their guards as they were being removed from the Fulton county tower to the courthouse Friday, were recaptured late at night by Deputy Sheriff Jordan, White and Smith. The pair were seized in a room at the Empire hotel, where they said they had been in hiding most of the day and night.

The Edmondson youths were arrested at first, charged with the theft of an automobile. As they were being led from their cells Friday, they made a break for liberty and escaped after a chase of several blocks.

The boys, both about 21 years old, will be arraigned in court today before Judge Humphries, on the charge of stealing an automobile belonging to J. F. Roberts, of 64 Cleburne avenue.

**INDEPENDENT RAPS HAYS' MOVIE TRUST**

New York, February 6.—Trust methods, calling for investigation by the federal government, were alleged against the Motion Picture Producers' and Distributors of America, of which Will H. Hays is president, in a letter made public today by Murray W. Garson, head of Carson Enterprises, Inc., independent motion picture producers.

In his letter, addressed to Mr. Hays, Mr. Garson says that he soon will call a meeting here of independent motion picture producers, distributors and exhibitors throughout the country to consider a course of action against the alleged trust methods of the Hays organization. This meeting, he wrote, "further will present the facts to the proper branches of the government for an investigation of this monopoly and for enactment of such laws that will protect the independent producers, the independent exhibitors, and the motion picture-going public."

It is charged that the picture men's body is conducted primarily in the in-

terests of three producer-exhibitor firms—Famous Players-Lasky, the Metro-Goldwyn organization, in which Marcus Loew has extensive interests, and the First National Exhibitors.

The letter was written in answer to one from Mr. Hays, which replied to an earlier misapprehension of the organization's alleged trust tactics.

**SEIZE ESCAPED BOYS IN DOWNTOWN HOTEL**

Arthur and Harry Edmondson, brothers, who escaped from their guards as they were being removed from the Fulton county tower to the courthouse Friday, were recaptured late at night by Deputy Sheriff Jordan, White and Smith. The pair were seized in a room at the Empire hotel, where they said they had been in hiding most of the day and night.

## DRUG CONFERENCE TOPPLES ON VERGE

BY THE ASSOCIATED PRESS.  
Geneva, February 6.—Undermined by the loss of its main prop, in consequence of the withdrawal today of the American delegation, the International Opium conference still stands tonight, but in a terribly weakened condition.

Nobody even attempts to conceal this view. The conference, however, will continue and presumably many of the delegations in attendance will sign the convention. But despite the assurance given in the communication of Stephen G. Porter, chief American delegate, that the United States will not cease its efforts through international cooperation for suppression of illicit traffic in opium and other dangerous drugs, the fear is widespread that America will withdraw from the conference will have the effect of taking the punch out of that body's efforts to conduct anti-narcotic warfare.

Mr. Porter, who will go to Paris tomorrow and sail from Cherbourg for New York on the steamer President Harding, February 12, tonight sent a note to Hertuf Zahle, president of the conference, that he is leaving Geneva because he is convinced that the purposes for which the conference was convoked cannot be achieved, because there seems no likelihood of obtaining limitation of the growth of opium to medical and scientific needs, and because the impossibility of attaining the suppression of opium smoking in the Far East serves only to increase the difficulties of getting opium production restricted.

The American chief delegate was scrupulously careful in his communication not to cast upon the league of nations any aspersions, and careful not to hold the league in any way responsible for the conditions leading up to the American decision to withdraw from the conference. The correspondent of the Associated Press was informed tonight that the American delegation is entirely sincere in the feeling that the league of nations should in nowise be called to account for the present situation and that it would be unfair to charge it. International conditions, especially in opium producing and manufacturing countries, they underline as the true cause for it.

### PARLEY DID NOT FAIL IS CLAIM OF BISHOP.

Rochester, N. Y., February 6.—Despite the withdrawal of the American delegation from the International Opium conference at Geneva and the declarations of the delegation chairman, Stephen G. Porter, that the purpose for which the conference was called could not be accomplished, the drug parley has not failed, Dr. Charles H. Brent, bishop of the Episcopal diocese of western New York, stated here today.

"Mr. Porter is not to be credited with failure," he said. "He has done a magnificent piece of work at the Geneva conference."

Bishop Brent recently returned from Geneva, where he was a member of the American delegation.

"The conference has created a public opinion that could not have been aroused by other means," Bishop Brent said. "It has focused the attention of the world on the subject of drug control."

### PROPHET IS MADE BUTT OF JOKES

Continued From First Page.

feed merchant of Bellport. The prophets of doom were kneeling in prayer and the shades were drawn.

Here was a perfect setting for a miracle—an old man's testimony provided by the bitter, ribald scoffers without and the earnest, anxious group within which believed that the greatest miracle in the world's history was about to come to pass.

Reid had defied the klu klux klan earlier in the day to prevent this miracle. A steady stream of automobiles, pouring toward the house, led to the suspicion that the klan had assembled to punish a "false prophet." Earlier, Reid had received alleged threats from the klan and the burning of the cross, an expert job, was thought by many of those outside the cabin to be the klan's first move.

There was fear in the crowd outside—at least among the merely curious. They did not know when riot and bloodshed might break loose.

But there was no fear within. The Reid group had protested when the lone constable who guarded them had threatened them in the kitchen. The Reids told him vehemently that the more torment they suffered "at the hands of the iniquitous" the better would they be prepared to meet their God, whom they expected momentarily.

"They dare not come out of that house tonight," a woman whispered out on the road. "This insane mob would kill them."

"God Almighty, why doesn't some one call the troopers?" shrieked another woman and her hysteria seemed contagious.

The situation became less threaten-

ing when Constable John Stephani stationed a guard of three deputies and four armed citizens about the house. The hoodlums were dispersed and a few close friends of the Reids were allowed to enter the house and remain there.

Reid was then reclining on a broken couch, close to a window. He drew back the shade from time to time and peered into the eastern sky.

The late afternoon had furnished some degree of comedy relief. Brother Downs, the bearded 57-year-old brother of Reid, had been five miles from Yaphank all his life, exhibited his hatred for motion pictures when movie camera men started clanking their machines about the Reid home.

After advising newspapermen that the end might begin half an hour before midnight or half an hour afterward, he suddenly rushed on, roaring at the movie men. Brother Downs looks like a lion.

It was learned later that Brother Downs had been the moving force in responsible for most of the world's sin.

Two physicians, among the spectators of this scene, finally took pity on Brother Downs and sought to place him in a hospital, but he shook them off and dashed into the Reid cabin.

He next appeared at a window exhibiting a sign which said: "The Lord shall save thee."

Later Miss Anna Lowery, a flapper of Roosevelt, drove up in her sedan and accosted Brother Downs:

"I say, pop, when does the big show begin?"

Brother Downs replied solemnly that the "cloud" would appear at or about midnight.

"Well, pop, don't disappoint me," said Anna. "I'll be back in my car at the big show."

Brother Downs' sad eyes followed her as she sped away.

Later Reid returned and the believers entered the hut and drew the shades. Reid had sold not only his house but his flivver, which brought \$100.

At nightfall Anna and many other women were among the big crowd which gathered about the Reid house. They came in expensive limousines, cheaper cars and on foot.

As he showed his first to the cinema operators, assailing them as "servants of the devil, black minions of hell, inhabitants of the sulphurous pit," the movie men ground on, and there probably will be some very funny pictures of Brother Downs in the news reel next week, especially of what happened when:

Brother Downs retreated to the shack. A few minutes later he reappeared with beard bristling and eyes aflame, and a basin of water in his hands. He rushed toward the photographers, leaving no doubt that they were about to be baptized. The cameras ground on.

Then some sinner's foot tripped poor, pathetic old Brother Downs, and down he went, his face going right plump into the basin, soaking his beard, and the new blue necktie which he had bought to wear in the procession to heaven. Brother Downs, shouting, delirious, haggard, interspersed with Yaphank colloquialisms, hurled a handful of mud at the cameras, but his aim was poor.

### VEIL OF MIST HIDES HOLLYWOOD ROWENITES.

Hollywood, Cal., February 6.—A veil of mist hid the hilltops of Hollywood tonight as followers of Mrs. Margaret Rowen, housewife-proprietress, heard the last 60 seconds of February 6 tick their way into eternity without culminating in the crack of doom. Mrs. Rowen had told her disciples that before the stroke of midnight, the second coming of Christ would have become a fact and that the elect would have been gathered into their reward.

Her prophecy was interpreted by some to mean that the world would end in one of great cataclysmic crash; other followers took a more conservative view and suggested that "a sign in the sky" might be the only evidence of the coming of Christ. The modern world had entered upon its last lap—a course of disintegration likely to consume years.

But to the casual observers, the drizzling mist was all that filled the heavens. Two leaders of the Rowenites, who use the name, "Reformed Adventist church," issued statements hours before the stroke of midnight, explaining that failure of Mrs. Rowen's prophecy to function would not mean "that our people will lose faith." One declared that "should the Lord find it better to postpone destruction of the earth, we will be ready to bear all the ridicule that will be forthcoming from the public."

The whereabouts of Mrs. Rowen and her Hollywood disciples was a mystery as the predicted hour of doom approached. She variously was reported to be in San Diego, Hollywood, and between Hollywood and Pasadena.

### OHIO CULT HIDES.

Cleveland, Ohio, February 6.—After spending the day in prayer, members of the Seventh Day Adventists Reformed church deserted their homes. Their meeting place remained mystery early tonight. A truck driver reported taking the leaders and some members to a farm near Bedford, Ohio, where he said they planned to stand on a hill top seven days if the world did not end at midnight. Newspapers were unable to find the hill.

Hostile crowds compelled them to go where they could await the end unmolested. Mrs. Helen Roberts, one of the leaders, told her upstairs neighbor as she said goodbye. The pulpit and furniture were moved from the Adventists' mission to another church. Both were dark.

Police protection was given Mrs. Roberts and Mrs. E. H. Frey, another leader, after they received a message threatening tar and feathers if they did not cease their preachings. A skull and crossbones marked the sign-nature.

### Fear Brings Suicide.

Shickney, Pa., February 6.—The end of the world at midnight was declared by members of the family to have prompted Mrs. Anna Korts to commit suicide today.

## Moon's Antics Cause Alarm TELEPHONES KEPT BUSY BY SUPERSTITIOUS On Eve of "End of World"

BY KENNETH L. EAGON.

This here world-coming-to-an-end business will either do one or two things, mostly one. It will reestablish for a long, long time, it looks like, implicit faith in the fact that it is a pretty good old world to live in after all—or else there won't be anything left to believe in anyway. So it's a most propitious time to cheer up and let the perilous prognosticators and dope dealers go on playing their little game of hide and seek and for all about watching the moon and sun and listening for funny noises.

It was no night for superstitions and susceptible folks—as Friday night. First, there were quite a few who sold their excess baggage and didn't think to wind the alarm clock. They spent the night praying and watching the skies.

Nothing happened. Even the slowest accommodation train came in on time. They kept on telling bedtime stories, selling bananas and laying an ice and groceries.

### See a Queer Ring.

About 9 o'clock last night, a number of Atlanta's thoughtless moon loom up lunary-like and then settle down inside a queer ring. All the telephones in The Constitution building began to do business yet.

Others, however, have been a little more exact, and predicted calamities, which did happen but there generally was some logical ground or reason for the assumptions and predictions.

So those who overdid their bank accounts during the last few days, tried to drink up all the "corn" in the town or made dates for next week, thinking they would have to use the ether to keep them, will be back in the harness today, wondering how they get that way.

Her body was found hanging to the rafters in a garage in back of her home.

Mrs. Korts had warned her husband and three sons not to go to work today, but to prepare for the millennium. She was 53 years old.

### WASHINGTON LEADER CONFIDENT OF END.

Washington, February 6.—Brother E. Aplin, leader of the 20 Rowenites here, is confident that if the world does not come Friday night, it will be along soon thereafter.

"No man can say exactly the minute it will come," he said, "but the period of probation ends at midnight. The end will not be long thereafter. Those who have not put their houses in order for the second coming, have scarcely time now. The time is at hand. We are just waiting."

### DISSENSERS SEEK To Organize New Science Church

New York, February 6.—A handful of believers in the Christian Science Parent Church of the New Generation has set out to reorganize the millions of adherents of the "Mother church" founded in Boston by Mary Baker Eddy.

The new church is one of the results of the prolonged litigation that burdened the Christian Science church for five years and which only recently was concluded. A woman, Mrs. Annie C. Bill, of London, is the leader of the new church. She claims the mantle of Mrs. Eddy.

Although it has been in existence less than a year, adherents of the new church claim that it has branches in 18 American cities and a church in London.

Each Sunday adherents of the new church gather at the Hotel McAlpin for services. There were less than 100 present last Sunday. Attendance at orthodox Christian Science churches in New York city is estimated at well above 100,000 each Sunday. Associated with Mrs. Bill is John V. Dittmore, formerly a director of the mother church in Boston and one of the losers in the long legal battle that raged within the church. Dittmore is now in London.

"We have no quarrel with those who adhere to the mother church, or with the board of directors of that church," said Joseph M. Dowsett, who is in charge of the New York branch of the new church.

"We love them all so much that we would save them from their errors and sins."

### GALLOWES TO CHEAT BASEBALL OF STAR PITCHING ARTIST

Los Angeles, Calif., February 6.—Clarence "Tuffy" Reid, whose remarkable pitching while he was under sentence to hang was responsible for a 1 to 0 victory for the San Quentin team over a San Francisco bankers' nine, must hang April 24, according to a death warrant signed here yesterday by Judge John L. Fleming. Reid's appeal was rejected by the state supreme court.

### SINGLE-HANDED OFFICER ARRESTS PARTY OF SEVEN

Columbus, Ga., February 6.—A new record was established by Ernest Evans, motorcycle officer of the local police department, when he raided an alleged negro gambling game and nabbed seven men singlehanded.

An eighth alleged offender escaped only by leaping through a convenient window and carrying the sash away with him.

### Removal of Alaskan Governor Is Sought On Political Charge

Washington, February 6.—Removal from office of Governor Scott C. Bonine of Alaska was asked in a sworn complaint filed at the white house today by John W. Frame, who declared the governor had been instrumental in depriving him of the office of republican national committeeman from the territory after he had been duly elected as such. The complaint was referred to Secretary Work, of the interior department.

The complainant named as persons whom Governor Bonine dealt with in his efforts to deprive Frame of the place United States District Judge Thomas M. Reed, United States Attorney Arthur G. Shoup, both of the first district of Alaska, and "one George Sexton, who had been duly elected a delegate to the Cleveland convention."

It was charged that at the Cleveland convention the name of Sexton was presented as national committeeman in violation of the Alaska primary law and that Frame had been "deprived of recognition as republican national committeeman," and the people of Alaska had been "deprived of his services as such."

the governor. He said that he did not know at the time of the trial that one of his relatives had married Mr. Underwood.

Governor Walker, in questioning counsel for both sides during the arguments, made it plain that he was moved only by consideration of public policy. Whether the interests of the state of Georgia could best be served by speeding the course of justice in declining to place any further obstacle in the way of the hanging, or best served by adhering strictly to the letter of law and precedent by ordering further delay on technical grounds were the questions uppermost in the chief executive's mind, he indicated before he went into his offices to study the law and the facts before rendering his decision.

### Calls the Juror.

After Governor Walker had heard at length arguments by attorneys for the youths and Solicitor Flounory, he called the juror, L. V. Smith, to settle in his own mind whether the relationship to the slain man's widow might have influenced his decision in the case.

Smith had been brought to Atlanta

by Solicitor Flounory. An affidavit from the juror attested the truth of the claim of relationship and at the same time disclaimed that he had knowledge of it at the time of the trial.

"If I had any reason to believe that this relationship had affected the justice of the verdict I would be ready to grant a respite, but as the counsel for the defense admits, it is only a legal technicality," Governor Walker said during the hearing.

### Case Would Be Lost.

Attorney Beeland pointed out that if Judge Searcy turns down the bill of exceptions presented to him, the case would be lost, as two bills cannot be offered.

"You certainly don't want to keep this case in the courts forever, do you?" was Governor Walker's answer to this.

"No, but we want to get the boys in the penitentiary, where they ought to be," responded Attorney Beeland.

"I want the law to take its proper course, but as far as I am concerned personally, I am not inclined to grant clemency in this case," Governor Walker declared at the close of the case.

case, adding: "I believe the boys have had a fair trial and got the verdict they ought to have, assuming that capital punishment is ever right. I believe that the existence of ten times as much crime in America as there is in England is because of our delays in execution of the law. People are beginning to believe that one can hire a good lawyer and get out of anything."

### YOUTH IS INJURED AS DYNAMITE CAP EXPLODES FRIDAY

Two Atlanta youths were injured in unusual accidents Friday—one having the thumb and forefinger of his left hand cut and burned badly when a dynamite cap, with which he was playing, exploded, and the other breaking his right arm as he fell while at play.

Byron Martin, 15, of 46 Williams

street, was the victim of the exploding cap. He told Grady hospital doctors that he found it in the yard and was playing with it when it went off.

L. F. Carter, 9, son of Policeman L. F. Carter, of 430 Ormond avenue, broke his left arm as he tumbled while running.

### Means Gets \$10,000 Bail.

New York, February 6.—Gaston P. Means, in Tombs prison since his recent conviction with Thomas E. Fielder, of conspiracy to bribe federal officials, obtained \$10,000 bail today and was released to await the outcome of an appeal. He is at liberty under \$40,000 additional bail on other indictments not yet tried.

BETTER THAN SILVER AND GOLD—Godliness with contentment is great gain. For we brought nothing into this world, and it is certain we can carry nothing out. And having food and raiment, let us be therewith content. 1 Timothy 6: 6, 7, 8.

PRAYER.—O Lord, we thank Thee that when we have Thee we have all and abound.

FAR FROM A JOKE!

It may read like a joke when a well-known chain of Atlanta stores advertises that it will leave three of its stores open to burglars, the keys in the doors and no firm watchmen around, with the injunction that windows and locks and doors shall be left intact.

But it is far from a joke!

It is another angle from which a view of one of Atlanta's most serious situations may be had. The firm's "notice to burglars" also recites that it has had to overhaul 21 of its stores since January 1, all of which had been burglarized with a merchandise loss of "over \$10,000" in addition to the expenses of installing new glass windows, doors, locks, etc.

This is only one firm and one chain of stores.

Losses from burglary have been relatively as large among other chains, and among other individual merchants all over the city.

Homes by the scores are also being burglarized every week.

There is not a night that these crimes do not multiply.

They are not confined to the suburbs and to the dark streets and alleys. They are committed in the very heart of the city, under the full glow of street lights and within talking distance of some of Atlanta's leading hotels.

Not only is there an orgy of burglary in Atlanta, but street banditry is just as bad.

These crimes have become so frequent they have become "ordinary."

The criminals are classed as "gentlemen burglars" and "baby bandits" and "smiling Johnnies" and "society rogues," and all that sort of thing.

They perhaps feel thrilled as they add to their successes and in the untiring achievements in their underworld ambitions.

It is a disgrace!

"Whisper it," some one says. "Why tell the world we have crime in Atlanta?"

In the good name of a great city why try to hide a situation that remains not only unchecked, but is on such an alarming increase that a mercantile firm feels impelled to offer \$1,000 for the capture and conviction of a burglar entering any of its chain of stores.

There is something radically wrong, and it will never be cured by sucking sugar-tits and closing weather eyes.

Crime is simply running riot in Atlanta. It will always be so until there is a stiffening-up of law enforcement.

How many burglaries of the several hundred burglaries recently committed in Atlanta, have been captured and convicted or are awaiting trial? How many bandits of the streets?

Not a sufficient number of policemen to do the job?

Then why has council abolished the traffic bureau that has at least accomplished something in traffic regulations, and added to the further responsibilities of general patrolmen the task of also keeping the streets safe and preventing the injuring and killing of our citizens?

Hasn't so-called administrative "economy" strangled at gnats and swallowed camels so far as the constitutional protection guarantees to our people and their properties go?

There is no joke about it, and

there is no sense in any secrecy about it.

If the present coordinate forces of law enforcement cannot at least reasonably check the present crime tendency, then we should undertake to raise an adequate force of responsible citizen volunteers and ask that they be sworn in and legally constituted to do what the paid guards of the law in Atlanta today are not doing.

But this is not the way. Atlanta needs to increase her force to cope with conditions.

The Atlanta police department as a whole is as competent as that of any city. It is handicapped, however, by too much politics, and too little cooperation.

Mayor Sims is to be commended for his proposal to add 25 night men to the force at once. By all means this should be done.

## THE SECURITY MARKETS.

The spectacular rise of Southern common, which sold above 90 Friday, was one of the outstanding developments of the week in the stock and securities market. Another development was the selling off of radios.

The Southern railway during the last year has shown a great improvement in business, and at the same time there has been spent, and will be spent, many thousands of dollars on this line. This has led to a spirit of confidence among the investing public and the result has been a steady rise in the price of Southern stock since last May. There are rumors afloat now that the stock will sell at 100 in the very near future and that the dividend will be increased a share to \$6. Considering the earnings of the road, a \$6 dividend seems to be justified.

Radios dropped because the buying public came to the realization that all good news had been discounted, and that the stocks had risen a little too far. However, it is hard to convince those in radio that the peaks have been reached, and there are various predictions that still higher prices will be reached this year in this class of securities.

## GEORGIA'S CHIEF BANDITS.

It is a cause for much satisfaction that deaths from preventable diseases in Georgia were considerably reduced in 1924 over preceding years. It shows a tendency on the part of the people to yield to modern methods of prevention, and speaks commendably for the agencies at work to these ends.

And yet, deaths from these diseases were far too many. Indeed, even one death from a disease as easily preventable as typhoid or malaria is just one too many.

Dr. W. A. Davis, chief of the bureau of vital statistics of the Georgia state board of health, made public his 1924 report Monday, and on the subject of preventable-disease deaths said:

"There may be some question as to the prevention of measles, scarlet fever and whooping cough, but the 8,854 deaths due to typhoid fever, malaria, smallpox and diphtheria is a sad commentary on the intelligence of the lawmaking bodies of the state, counties and cities of Georgia, who also had the purse strings of the funds raised by taxes from the citizens of this state. The first duty of a statesman is the protection of the public health."

It has been demonstrated beyond all experimental steps that typhoid can be prevented by the anti-typhoid serum, even should living or eating environs cause the germ infection, which is unnecessary. This serum administration is not only conducted by most county health boards, but urged. It is free. There is no valid excuse, therefore, for any one to have typhoid if in reach of serum treatment. The state is sadly deficient in pushing the campaign as vigorously as it ought. It is little less than a crime to withhold necessary appropriations in this matter.

The same is true as to malaria. It is a disease conveyed entirely and only by mosquitoes, and can be prevented by proper screenings, drainage, etc. Again the state is deficient in its provisions for this great work of conservation and humanity.

While it is doubly distressing to have deaths result from preventable diseases, the costs financially to the man-energy of the state for these diseases is inestimable. Thousands of victims who do not die are incapacitated for work for weeks and even months each year—dengue fever being an especially militant enemy of human competency—and the meaning of this to the progress and prosperity of communities, and to the state, is of the greatest possible importance.

It is conservative to say that the loss of man-power in business and industry in Georgia each year from diseases that should be prevented will reach in a gross of per diem earnings to several millions of dollars. Such diseases are Georgia's chief bandits.

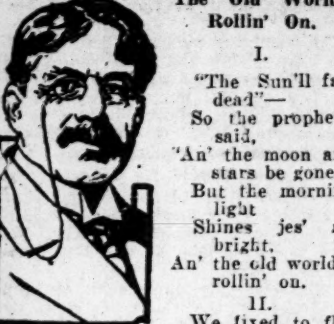

It is something to think about.

Spring gardening time is at hand, when we'll sit on the fence and watch the hired man dig for a living.

It hasn't occurred to any judge to sentence an offender to hard labor at a cross-word puzzle.

## Just From Georgia

BY FRANK L. STANTON

The Old World's Rollin' On.  
I.  
"The Sun'll fall dead."  
So the prophets said.  
"An' the moon an' stars shall be as light."  
But the mornin' light shines jes' as bright.  
An' the old world's rollin' on.We listened to "To the Paradise-ay-ay-ay."  
For the Judgment Day would dawn;  
With robes as white as the clouds in flight.  
But the old world's rollin' on.The same old roll.  
On the same old roll.  
War the folks was raised an' bo'n;  
An' it's good to stay—  
That's what I say—  
On a world that's rollin' on!A Business Text.  
"The kind of booster we like," says the Fulton Gazette, "is the one who spends his money at home. Boost, i. e., by word of mouth is fine, and it helps, but boosting business by trading at home is even better. Be selfish enough to spend your money where you will have a chance to get it back."If He Happens to Survive.  
This one is saddled on "the horse editor" of the Monroe Appeal:  
"The finding of a folding bed in an Egyptian tomb, the last of the implements of that sort are 4,000 years old, or just about as old as a person feels after spending his first night in the midst of one of them."The Billville Banner.  
"We don't belong to no 'world-endin' era,'" says the Billville Banner. "We've been fairly well satisfied with this old world ever since we found bursel in it. We don't know of any better place to live, and we don't want to leave it. We're for it, investin' in it, and we're disputin' the right-of-way with a limited railroad train in a rat-fest automobile at Dear Mountain, N. C. 'Let 'er roll,' is what we say to the world-endin' people. 'She's givin' you a free ride round the skies.'"This Old Pipe 'o' Mine.  
There ain't no use in talkin', boys. Real friends are hard to find. But I've got one both tried an' true—Jes' this old pipe 'o' mine.

Why this old pipe—gosh hang it all!—Kin talk like me an' you? There's lots o' times, if 'twan't fer it, I dunno what I'd do.

I'm gettin' long in years, they say—An' I'm feelin' so, too. I'm feelin' so, too. When such times come, I light my pipe.

An' it begins to talk.  
In gurglin' tones it calls to mind—Glad days that long have passed; These days so full of life an' joy, An' much too full to last.

But even so, my old friend says, An' now, that I am growin' old, Must give, as others give.

An' thus my old pipe mellows me With memories so dear. Then talks to me of future things An' bids me never fear.

Yes, all in all, I've got a friend That stands the test of time. An' this old friend, did him it all, An' this old pipe 'o' mine.

—CLAUDE GLENN.  
Nuggets From Georgia.  
(As Found in the Thomassville Times-Enterprise.)

"A few more still put out of business, which it will cost much more to replace them."

"The auto that bumps into a tree with malice aforethought often finds the aftermath is worse than he expected."

"The candidate with strings attached to him often finds that the strings are tighter than they look when they are pulled."

"The bride that expects to share the joys and sorrows will probably find she will have one of them anyway, anyhow."

"It's not polite to cuss before ladies so don't say what you think of the idea of cussing before ladies have first go at the barber chair."

## AUTO EQUIPMENT MEN

## END MEETING TONIGHT

The annual sales conference of O'Brien, Abston &amp; Co. and of the Alexander-Seawall company, two of the largest southern jobbers of automobile equipment, will come to a close tonight with a banquet and final business session at the Henry Grady hotel. The Champion Spark Plug Co. will be host to the sales organizations and officials of both companies at the banquet. F. B. Caswell, general sales manager; Dr. H. A. Haake, technical expert; H. F. Snively and George Baker, division manager, will address the body. Fred D. Alexander, head of O'Brien-Abston &amp; Co., stated that their convention had been one of the most instructive and valuable ever held by his company, and that the number of officials from the big companies which he represents in this territory was highly gratifying, and indicative of the importance which they attach to sales possibilities in the south.

Without an exception, these men, many of whom are heads of firms handling millions of dollars of business each year, predicted a good sales year generally, and were most enthusiastic over the possibilities of the south, which they rate far better than any year since 1919, said Mr. Alexander.

Officials of the Alexander-Seawall company were equally impressed with the optimistic note sounded by the men, and were highly pleased with the representation from the home offices of the lines which they sell.

## BUTLER ST. Y. M. C. A.

## TO OBSERVE RACE RELATIONS SUNDAY

Race Relations Sunday will be observed at the Butler Street branch of the Y. M. C. A. Sunday afternoon at 3:30, when Dr. W. G. Alexander, dean of the theological department of Morris Brown university, will deliver the address of the day, and several selections of music will be rendered by the Y. M. C. A. quartet.

In addition to the program a picture of the late John J. Edgar will be unveiled in the lobby. Mr. Edgar was a staunch friend of the Y. M. C. A. and served on the building committee of the new building on Butler street. A silver offering will be taken to add several magazines and periodicals to the reading room.

## BLANSHARD LECTURES

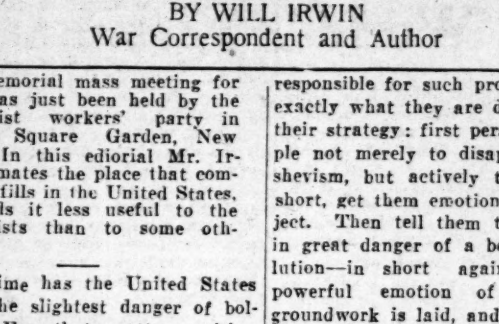

## HERE NEXT WEDNESDAY

Paul Blanchard, author and lecturer, who is field secretary of the League for Industrial Democracy, of New York, will speak at 12:30 Wednesday at the Chamber of Commerce under auspices of the industrial committee of the Atlanta Y. M. C. A.

Mr. Blanchard has had a varied career, being a lecturer, author, factory worker, labor union officer and a world traveler. He is a graduate of the University of Michigan, where he was elected to the Phi Beta Kappa honorary fraternity and received many high oratorical honors. He took post graduate work at Harvard and Columbia universities.

During the last year he has visited 85 colleges from Maine to California and addressed 35,000 students.

## The Bolshevik Bogey

BY WILL IRWIN  
War Correspondent and Author

At no time has the United States stood in the slightest danger of bolshevism. For that matter, neither since 1919 has western Europe.

When Noske put down Spartacism with the heavy Prussian hand, when the shop stewards struck in the Clyde works collapsed, the movement had reached its peak.

Thereafter communism has been only a minor nuisance in the European democracies, and with each election it has lost something of its feeble energy and power. As for us, we have never known even an approach to a vital bolshevist movement.

Yet in the past six years we have spoiled hundreds of tons of good print paper with frantic denunciations of bolshevism, which almost every American above the grade of class D moron either fears, delects, ridicules or merely tolerates. It seems like waste effort, this frantic preaching to convert the already converted. But really it isn't. The gentlemen most

responsible for such propaganda know exactly what they are doing. This is their strategy: first persuade the people not merely to disapprove of bolshevism, but actively to hate it—in short, get them emotional on the subject. Then tell them of the danger in great danger of a bolshevist revolution—in short again, raise the powerful emotion of fear. The groundwork is laid, and now you are ready to work. Proceed to confuse every forward-looking movement with the machinations of Moscow. If you are a manufacturer working for the "American plan" or fighting the open shop, announce to the electorate that trades unions are an "entering wedge" for Moscow. If you are a militarist, whisper that the whole movement for peace in the United States is part of the Moscow plot.

Trosky, you see, intends to disarm our country, lure it into a false security, in preparation for the great bolshevist uprising! Are you an employer of child labor? Proclaim that the federal amendment is a step toward bolshevism.

As the very gentlemen who issue this literature know, it is all bunk of the shoddiest description. But the believer in the good sense of democracies is forced to admit with sadness and disillusionment that in many great political divisions of this country it works.

## THE WORLD'S WINDOW

BY PIERRE VAN PASSEEN

## Peasant Danger.

Reports that Grand Duke Cyril Romanoff is exerting all his efforts to mobilize a sort of international army to invade Russia are contradicted from Berlin. The Russian exiles naturally follow closely the change of events in their mother country and no doubt feel inclined from time to time to attempt a glorious dash to regain their country, but the means are lacking. Army does not march on sheer heroism. It is also a doubtful thing if any state would allow a concentration of armed forces on its soil; but because the little border states around Russia, who are living in constant apprehension of communist imperialism; neither can Germany or France or Austria be expected to lend itself to further preparations for such an undertaking. The Russian exiles must have patience. Bolshevist supremacy at present is undisputed. If ever there should be an overthrow of the present regime the movement will originate with the peasants. The anxiety of the authorities in Moscow, the constant concessions to the peasant groups and their efforts to draw these people closer to the political arena shows that the directors of affairs are fully aware of the danger of a peasant revolution.

## Distressful Isle.

The gruesome specter of famine is stalking through Iceland. This is not the first time in the history of the past half century all the horrors of civil war, terrorism, dissension and great distress, and the constant concessions to the peasant groups and their efforts to draw these people closer to the political arena shows that the directors of affairs are fully aware of the danger of a peasant revolution.

## HEALTH TALKS

BY WILLIAM BRADY, M. D.

## HAVE YOU ENOUGH GALL?

What causes an excess of bile? Inquires a reader who is probably affected that way. Second, is the liver over or underacting? Third, should a person abstain from all fruits (uncooked) and fried foods in such a case? And then this reader with so much gall defaults by forgetting to sign his letter, and so I suppose he really has too much bile or something like that. If he imagines I ever pay serious attention to such communications.

Most of us secrete about a pint and a half of bile a day, when we are awake. The bile is of a dark olive or yellow or green color, depending on the character of the diet and the condition of the liver. Bile is a powerful solvent, which the liver secretes to break down food. Bile is a powerful solvent, which the liver secretes to break down food.

## FLORIDA TO PROBE GASOLINE ADVANCE

Tallahassee, Fla., February 6.—(By The Associated Press.)—Governor John W. Martin stated today just before leaving for the south Florida fair at Tampa, that as soon as he returned to the capital he proposed to take up for investigation the recent increases in the price of gasoline in Florida.

The governor believed, he said, that it was a proper subject for an inquiry by the chief executive of the state as the cost of gasoline touches directly or indirectly everybody in the state.

He could see no plausible reason on surface conditions to justify three increases of 2 cents a gallon each within the last few weeks, the latest announced today, making two within 10 days.

The governor's statement was brought forth when it was called to his attention that the third increase had been made today throughout the state.

He did not know just what could be done, he said, but would certainly try to give the people relief if he found that the numerous increases were unwarranted.

**PRICES IN MIAMI GO TO 26 CENTS.**  
Miami, Fla., February 6.—Gasoline prices were increased 2 cents on both tank wagon and service station gasoline effective here today. Tank wagon gasoline sells at 23 cents and service station gas at 26 cents.

**6-CENT ADVANCE SEEN IN ORLANDO.**  
Orlando, Fla., February 6.—A rise of 6 cents a gallon in gasoline announced as effective today at retail filling stations in Orlando, will bring the price to 26 cents, an increase of 6 cents since Sunday, January 25, when 2 cents were added to the price. Another 2 cents raise came

the following Sunday, while Friday is picked for the third advance.

**ALL ATLANTA COMPANIES RAISE GASOLINE PRICE.**  
The new 2-cent-a-gallon raise in the price of gasoline was made unanimous Friday when officials of the Texas company—the last of the oil corporations to swing into line—were officially notified and advised their filling stations throughout the city.

Attorney General George M. Napier, commenting on the new gasoline price advance, said: "I have been advised that Governor John W. Martin, of Florida, is probing the situation there, and as our positions are somewhat similar, his findings may be of value."

"Something will be done but I have not determined, as yet, the proper course to pursue."

Wofford (oil) company officials stated they were advised of the raise Thursday night but at an hour too late to communicate with their filling stations. Their raise became effective at the same time as that of the Texas company.

This, the third advance in gasoline prices within the past three weeks, is said to be due largely to a marked decrease in production.

Comparative figures show a decrease in production of 49,000 barrels for the week ending January 31 over that of the week ending January 24, and an additional decrease of 35,700 barrels for the week ending February 3. These figures are an approximation of total oil fields over the United States.

**OCHS WILL RAISE \$1,000,000 FOR BERRY**  
Continued From First Page.

founder of the school, for not having done more for the institution than he had."

Mr. Berry said that he had not intended to do more for the institution than he had. "I was amazed with the remarkable work of the school," he said.

Upon his return to New York, he said, he will immediately set in motion plans for raising the \$1,000,000 in order to have it ready for presentation to the Berry schools when the institution celebrates the twenty-fifth anniversary of its founding in 1927.

## Spring Is Ahead of Time But Didn't Fool Forecaster

Fair and warm Wednesday, fair and warm Thursday, fair and warm Friday, and now it's fair and warm today.

For four straight days, C. F. von Herrmann, in charge of the local weather bureau, has called the turn, exactly on the weather, but he has not been deluged with telephone messages congratulating him on his ability. Nobody ever talks about you when you do good work, but let a weather prophet or a baseball pitcher have an off day and then hear him howl.

Mr. von Herrmann even predicted the exact temperature for Friday, 63 degrees maximum, and it went to 63 degrees maximum. He now predicts it will go close to 70 degrees maximum Saturday and that Sunday will be a nice, spring-like day, clear and warm that will make a lot of fishermen get restless in their pews.

**"Give 'Em Credit."**  
Now here's a good chance to organize a "Give 'Em Credit" club in Atlanta. The weather prophet certainly deserves some bouquets for his accuracy recently and those who want to become charter members can send down some boxes of cigars to Mr. von Herrmann. He doesn't smoke but the newspaper reporters who pester him do.

Weather predicting in Atlanta is away up in the big league of prophesying, according to those who know about these things. Down in Florida the prophet has to do is to pre-

tend that the contract is illegal because no committee has a right to award contracts for more than one year, and recently announced plans to advertise for new bids.

However, nothing will be done until after the hearing next week, and Mr. Wallis has announced that he will postpone any action on tearing down the refreshment stand until after that time.

It has been pointed out by Mr. Reall that the contract was declared legal by a superior court judge last year, and that City Attorney James L. Mayson also has ruled that the contract is legal.

Members of this year's park committee, in addition to Councilman Reynolds and Councilman Chase, are Wylie L. Moore, C. D. Knight and W. E. Saunders. Councilman Saunders is the only one of the 1925 board who was also a member of last year's committee.

**ORDER TO PROBE ALUMINUM TRUST**  
Continued From First Page.

W. Mellon and R. B. Mellon. Of course, A. W. Mellon resigned as a member of the board of directors when he went into the government, and we now have six directors instead of seven, and when he has finished his work in Washington, he will again become a member of the board of directors.

Stone said that the department desired to bring the evidence since 1922 up to date, so that it "might act in full knowledge of the course of conduct of the company up to the present time."

The Aluminum Company of America at present controls more than 90 per cent of all known deposits of bauxite in North America that are of such a character that they can be manufactured therefrom in commercial quantities," Attorney General Stone said.

Mr. Mellon issued a statement at that time, declaring that the attacks were inspired by anti-aluminum and anti-tariff hatred and that the tariff had resulted in monopoly or price gouging. The vice president of the concern, Roy A. Hunt, said that the company was a "victim" of these accusations before any impartial tribunal.

**BAN ON JITNEYS APPROVED BY MAYOR**  
Continued From First Page.

what he told Mayor Sims, is that while he recognizes the fact that jitneys must go, a reasonable time should be allowed for their discontinuance, instead of forcing a large number of men out of work on short notice, and leaving more than 200 second-hand cars on the hands of the owners.

He previously had announced that the ordinance, if signed by the mayor, would be fought "through every court in the land," and that an injunction would be asked immediately to prevent enforcing the law.

The ordinance was passed by council after a heated session Monday, and after opponents of the measure had expressed the belief that some sections of it were unconstitutional. It was drafted and sponsored by the special traffic committee of council, Alderman J. L. McLeavelle, chairman, which has been working since a year studying traffic conditions here as a result of the relief petition of the Georgia Railway & Power Co.

**Sims Milk Ordinance.**  
Mayor Sims also acted favorably on the milk ordinance, calling for enforced pasteurization of part of Atlanta's milk supply at the end of a year's time, but reserved decision on the ordinance abolishing the traffic bureau of the police department until after a hearing requested by Alderman Jesse W. Armistead. He expected to take final action on the paper today, and it has been prophesied generally that he will approve it.

## MAN AND WOMAN HELD ON 'SUSPICION'

Mrs. O. N. Ferguson, 23, and Frank Cruse, 24, both of Birmingham, are held at police station on a blanket charge of "suspicion," after calling police at a late hour Friday night to a room at 207 Courtland street in order to settle a slight misunderstanding.

Cruse, who summoned policemen, stated that they arrived in Atlanta Friday afternoon and that Mrs. Ferguson had robbed him of \$9.

Mrs. Ferguson declared they arrived last Saturday night, after she had purchased Cruse a suit of clothes for the trip and had paid for her tickets.

She added that, since that time, he had stolen \$9 from her and that this was her first opportunity to recover the money. She said he had stabbed her during the argument, and displayed a slight scratch on her neck.

Losing his temper, Cruse declared they had jumped \$2,000 bond each and were wanted in Birmingham for highway robbery.

The woman denied this but said she had posted \$25 bond in that city after being arrested for joy riding.

Call Officers Williams and Lee took them both to police station, where they are held, pending further investigation.

## MISSOURI ASKS DEATH SENTENCE FOR EMBEZZLEMENT

Jefferson City, Mo., February 6.—The death penalty for embezzling bank officials is provided in a bill which is soon to come up for third reading in the Missouri legislature.

All efforts to amend the measure have failed and its passage is regarded as practically assured.

Representative Ellis, of Barry county, a strong supporter of the bill, told

## HOW TO GET RID OF CATARRH

A Simple, Safe, Inexpensive Method That Clears Out the Head, Nose and Throat.

There is no disease more offensive or disagreeable, or no disease that will lead to as much serious trouble as catarrh. You can now get rid of it by a simple, safe, pleasant home remedy discovered by Dr. Blosser, a catarrh specialist.

Dr. Blosser's Remedy is composed of the finest natural ingredients, and is entirely harmless. It contains no chemicals, no poisons, and may be used by women and children as well as men.

If you suffer from catarrh, asthma, catarrh of the nose or are subject to frequent colds, get from any drug store a convenient pocket size package of Dr. Blosser's catarrh remedy, and use it as directed. It is a pleasant, beneficial effect.—(adv.)

## MAN IS INJURED IN AUTO ACCIDENT; GIRL IS ARRESTED

G. W. Berry, 49, of 114 Curran street, is injured and Miss Evelyn Coppedge, 18, of 68 Millside avenue, is free in \$100 bond following an automobile accident Friday night.

The young man is said to have driven his car into Berry as he alighted from an outbound Marietta street car, and received a scalp wound, but is not believed to be hurt seriously. He was taken to Grady hospital, where his wound was dressed. Miss Coppedge is charged with reckless driving.

## MAN AND WOMAN HELD ON 'SUSPICION'

Mrs. O. N. Ferguson, 23, and Frank Cruse, 24, both of Birmingham, are held at police station on a blanket charge of "suspicion," after calling police at a late hour Friday night to a room at 207 Courtland street in order to settle a slight misunderstanding.

Cruse, who summoned policemen, stated that they arrived in Atlanta Friday afternoon and that Mrs. Ferguson had robbed him of \$9.

Mrs. Ferguson declared they arrived last Saturday night, after she had purchased Cruse a suit of clothes for the trip and had paid for her tickets.

She added that, since that time, he had stolen \$9 from her and that this was her first opportunity to recover the money. She said he had stabbed her during the argument, and displayed a slight scratch on her neck.

Losing his temper, Cruse declared they had jumped \$2,000 bond each and were wanted in Birmingham for highway robbery.

The woman denied this but said she had posted \$25 bond in that city after being arrested for joy riding.

Call Officers Williams and Lee took them both to police station, where they are held, pending further investigation.

## MISSOURI ASKS DEATH SENTENCE FOR EMBEZZLEMENT

Jefferson City, Mo., February 6.—The death penalty for embezzling bank officials is provided in a bill which is soon to come up for third reading in the Missouri legislature.

All efforts to amend the measure have failed and its passage is regarded as practically assured.

Representative Ellis, of Barry county, a strong supporter of the bill, told

## HOW TO GET RID OF CATARRH

A Simple, Safe, Inexpensive Method That Clears Out the Head, Nose and Throat.

There is no disease more offensive or disagreeable, or no disease that will lead to as much serious trouble as catarrh. You can now get rid of it by a simple, safe, pleasant home remedy discovered by Dr. Blosser, a catarrh specialist.

Dr. Blosser's Remedy is composed of the finest natural ingredients, and is entirely harmless. It contains no chemicals, no poisons, and may be used by women and children as well as men.

If you suffer from catarrh, asthma, catarrh of the nose or are subject to frequent colds, get from any drug store a convenient pocket size package of Dr. Blosser's catarrh remedy, and use it as directed. It is a pleasant, beneficial effect.—(adv.)

## \$500.00 Life Insurance For Only \$5.95 Per Year

With Double Indemnity (\$1,000.00) if death occurs by certain travel or automobile accidents, as specified therein.

**A READER SERVICE REAL AND WORTHWHILE**  
Thanks to the enterprise of Atlanta's Best Newspaper, men, women and children of Atlanta and surrounding territory, between the ages of 10 and 45, can secure this life insurance at the remarkably low rate of \$5.95 per year paid in advance.

\$5.95 means nothing to you now, but force yourself to dwell for a moment upon the unpleasant thought of your loved ones when you are gone, and they no longer have your protection or support—\$500.00 may mean everything to them then.

Always in close touch with the life of the community, and ever alert to render worthwhile service to its readers, the Daily and Sunday Constitution is not only a protection for you and your loved ones at a cost so low that no right-thinking person can ignore it.

This is a real reader service offered to you at less than cost by the Daily and Sunday Constitution. It is issued only to subscribers and the immediate dependent members of the subscriber's family living in the same home. This insurance is issued by the Gen City Life Insurance Company, Dayton, Ohio.

Already four \$500.00 death claims have been paid by this company to the beneficiaries of subscribers to the Daily and Sunday Constitution.

Either new subscribers, or those now taking the paper, can secure this insurance and pay the carrier in the usual way the regular rate. Where there is no carrier service the paper can be sent by mail, all subscribers of record being eligible.

May	24.08	24.20	24.05	24.06
June	24.08	24.20	24.05	24.06

New York, February 6.—Declines in the cotton market yesterday were followed by rallies early today, owing to the failure of weather reports to show rains in the southwest. After selling up to 24.05 for May, or about 10 points net higher, however, prices weakened under renewed liquidation and May broke to 24.22 in the late trading, closing at 24.31. The general market closed steady but 17 to 15 points net lower than Thursday.

The opening was steady at an advance of 2 to 4 points. Overnight selling orders caused irregularity, but they were soon absorbed and the market did better in the first hour on relatively steady Liverpool cables, continued bullish advices from the south and covering by some of the early buyers. Sellers who were disappointed by the continuance of dry weather in Texas. The demand was supplied on advances of about 18 to 19 points above Thursday's closing quotations, however, and after selling at 24.83 for July and 24.58 for October, the market turned easier. No particular change in the news from either the spot or cotton goods market was noted in explanation of the decline, but local traders thought they saw indications that the demand had tapered off, and failure of the weather news to create a broader demand seemed to unsettle the confidence of early buyers.

After showing net losses of about 10 to 15 points, the market stiffened up on a bullish view of the week-end figures, but failed to hold the gain, later reaching the lowest levels of day when sentiment seemed to be unsettled by the break in the weather news. July sold off to 24.50 and October to 24.25 and the close was within 8 or 9 points of the low.

The weekly statistics showed a decrease in the world's visible supply of 70,881 for the same week last year.

**SPOTS IN NEW YORK.**

New York, February 6.—Cotton, spot quiet; middling, 24.25.

**MARKET NEUROSIS.**

At New Orleans, February 6.—The cotton market today was rather nervous and erratic but the trend was generally downward although at the end prices showed a slight recovery from the previous day although March at one time had traded 19 points net higher and later on as much as 14 points above the previous day's close. The market showed a recovery from the previous day although March at one time had traded 19 points net higher and later on as much as 14 points above the previous day's close.

At the start the market improved on cables and first trades showed gains of 7 to 9 points. Prices continued to gain during the first part of the morning until March traded at 24.24, May 24.25, and October 24.28 or 19 to 21 points above the previous close. The later reaction carried March down to 23.99, May to 24.18 and October to 24.05 or 20 to 23 points down from the highs and 12 to 16 points net lower compared with the previous close. The market rallied at 24.24, May 24.25, and October 24.28 or 19 to 21 points above the previous close. The later reaction carried March down to 23.99, May to 24.18 and October to 24.05 or 20 to 23 points down from the highs and 12 to 16 points net lower compared with the previous close.

## HEAT TROUBLES AS POPE LOOMS

BY HAROLD ANDREWS.

Chicago, February 6.—The price of wheat on the Chicago Board of Trade has popped from its balloon-like inflation and the cause is ascribed by most experts as a reaction to the introduction of a resolution into Congress asking for an investigation. Grain traders, greatly concerned about possibilities of the investigation, say they "don't know who their enemies are." Little solace is derived from the repeated assertions of Dr. J. W. Durel, government grain exchange supervisor, that the market can be given a clean bill of health in any investigation.

The speculation is bringing their hands for fear their position might be endangered through the forced publication of specific names and contracts.

The consensus has it, however, that this cannot be done under the law. The government bureau of administration has received a full report from all trades and the law defines what part of and when such data might be made public. There is no doubt that official has sole authority to determine whether the data may be made public.

## The Day in Finance

BY R. L. BARNUM

New York, February 6.—With the volume of trading on the stock exchange yesterday again reaching the 2,000,000-share mark and with the average for fifty representative stocks making a new high for the year and for all time, speculative Wall Street expected that the market had again turned upward. There was a strong active opening. But then on heavy profit taking from the west May wheat broke 9 cents from the day's high, 42 cents from yesterday's high and 20 cents from the recent high, causing considerable profit taking from the west in stocks.

On the heavy selling of stocks by the west the volume of business handled dropped off considerably compared with yesterday's heavy trading while prices were advancing. This was taken by Wall Street to mean that the interest of the public is still on the long side of the market.

While the new high average price for all time for fifty representative stocks converted many people in Wall Street from the bear to the bull side of the stock market, at least one prominent banker was found in the financial district here today who is not willing to buy stocks. He thinks oils and rails may go higher. But as for industrials he wants none of them. As long as his name is not used there is no reason why his remarks cannot be quoted. What he said is really what counts, not his name.

"I am not bullish on industrial stocks," he said, "because I think stocks already are too high. Oils and rails will probably go higher. As for industrials I am willing now to go on record with the prediction that within a month we will hear talk of over production and a slowing down in general trade, with much disappointment being expressed. I am not a bear on the industrial outlook, but from my viewpoint hopes for 1925 have been raised too high."

"Many business men now expecting a boom for 1925 look back on 1924 as a very poor year. As I see it, this viewpoint is wrong in both directions. I know no better way of judging general business conditions than by employment figures. Last year there was full employment in every industry with two exceptions, textile and coal. To me that means that 1924 cannot be a very poor year. As for 1925, I am expecting an increase from 3 to 5 per cent in general trade over 1924, of which 1-2 per cent will be allowed for increased population. If last year's production was 100,000,000, we will realize and we get an increase this year of from 3 to 5 per cent the 1925 volume of general trade should be satisfactory."

More gold for export was engaged today, the Irving bank getting \$1,000,000, making \$5,700,000 engaged this week by that institution alone.

Herriot proposes debt commission.

Paris, February 6.—Premier Herriot today proposed to a plenary session of the chamber of deputies foreign relations and finance committees the creation of a commission composed of 14 members to study, in close cooperation with the government, a settlement of the inter-allied debt problem. This commission would report its solution to parliament.

The personnel of the two committees appeared to receive the premier's proposal favorably, but the majority agreed that the constitution of such a commission would be dependent upon the prompt voting of the French budget, which must be put through parliament first.

Members of the committee, it is understood, will do evangelizing work among their respective groups and urge that the budget be passed through the chamber with the shortest possible delay. Meanwhile, they plan to hold informal discussions in order to be ready to create the debt commission just as soon as the budget matters is settled.

"We must educate our young men for practical and lucrative careers," said one college professor. "Of course," replied the other, "but I don't see how we are to go much further in that direction unless we establish a special course in gum running."

## No War Clouds But U. S. Powder Is Dry---Hines

Prices Show Some Recovery After Break of 10 Points

CHICAGO GRAIN QUOTATIONS.

	Open	High	Low	Close
WHEAT	1.18	1.24	1.20	1.22
Barley	1.18	1.24	1.20	1.22
Oats	1.18	1.24	1.20	1.22

Savannah, February 6.—"There is no war cloud on the horizon but the army is keeping its powder dry and will be ready for eventualities. This, in substance, is what Major General John L. Hines, chief of staff of the army, said this morning when asked by an Associated Press representative if another war might come in the near future."

"Although the nations are now smoking the pipe of peace, we always have the next war in view," was his laconic comment. When asked if the military forces of the country would be "caught napping" if another war suddenly developed, General Hines said: "We are ready for a war, but of course you know we must keep up with the modern military requirements and always be ready."

Asked if the air forces of the present military establishment were in the same ready-for-action condition as the other branches, General Hines nodded in the affirmative.

General Hines arrived this morning at 8:30 o'clock and was met at the Central of Georgia railway station by the Georgia Hussars and a detachment from the 118th field artillery.

A major general's salute was fired by the artillery as General Hines appeared. He reviewed his escort, which then swung into column, and was escorted to the De Soto hotel for breakfast. As the guest of Brigadier General Robert J. Travis, General Hines was taken to Fort Screven, where he was to spend the night. A dinner will be given for him at Bannock lodge this evening at 7:30 o'clock.

He will leave for Charleston at 1:15 o'clock tomorrow morning to inspect the other half of the Eighth infantry at Fort Moultrie.

Paris, February 6.—Premier Herriot today proposed to a pl

## Interesting Week-End Affairs Fill Calendar for Today

Miss Martha Ginn, of Boston, a charming visitor, will be honor guest at two social affairs today. Miss Nell Clayton will compliment Miss Ginn at a bridge-luncheon, and this afternoon Miss Margaret Nutting has invited the members of her bridge club to meet Miss Ginn.

The marriage of Miss Lillian McClelland and Ross Johnson will be an interesting event at this evening at 8:30 o'clock at the North Avenue Presbyterian church.

This afternoon society will assemble in the grill of the Biltmore hotel to enjoy the afternoon tea-dance, an occasion of much interest to the younger social set and married contingent. Miss Ida Sadler, a popular debutante, will be central figure at one of the largest parties to be given at the dinner-dance this evening at the Piedmont Driving club. Mr. and Mrs. Bruce Woodruff will honor this charming debutante.

### Miss Gardner Gives Valentine Dance.

Miss Julia Gardner was hostess at a Valentine dancing party Friday evening at her home on Peachtree road.

A color motif of red and white was carried out in the decorations. Red hearts, cupid and other valentine suggestions were artistically used.

Little William Holton, cousin of the hostess, dressed as a little cupid, presented the valentine favors to the guests.

Miss Gardner was lovely in a model of tan embroidered georgette. Mrs. Joseph Gardner assisted her daughter in entertaining, and wore a gown of black crepe.

Seventy guests, including the young social set, were invited.

### Mrs. Cooper Entertains At Fort McPherson.

Mrs. Charles F. P. Cooper was hostess on Friday afternoon at the second of the series of parties at which she is entertaining at her home at Fort McPherson. The house was decorated with quantities of lovely spring flowers.

The guests included Mrs. A. K. Boling, Mrs. Canning, Mrs. E. W. Leard and her guests, Mrs. E. M. King, Mrs. J. E. Graham, Mrs. George W. Teachout, Mrs. Ernest Eddy Haskel, Mrs. John Woodland, Mrs. Melville S. Jarvis and her sister, Mrs. A. W. Rapp, of Clarkburg, W. Va.; Mrs. Hugh C. Parker, Mrs. George Prindle, Mrs. Robert Poff and her guests, Mrs. Elizabeth Anderson, of Long Island; Miss Elida Raffensperger and Mrs. Edgar G. Cooper.

### Miss Harper To Honor Miss Spalding.

Miss Lucy Elizabeth Harper will entertain in honor of Miss Mary Brown Spalding Saturday, February 14, at the Biltmore tea-dance.

The guests will include a small group of intimate friends.

### Birthday Party Given Frances Odell.

On Friday afternoon a lovely party was given by Mrs. John W. Aiken in honor of her granddaughter, Miss Frances Akin Odell, one of the charming members of the younger set.

The party was given at Mrs. Akin's lovely home on Muscogee drive.

Beautiful valentine decorations were used throughout the home. Following a bridge game tea was served. The handsomely appointed table was overlaid with an exquisite cover of red lace. Gracing the center of the table was a silver basket holding red roses and narcissi. Red unshaded tapers were in silver candelabra. Unique valentine favors were given the guests.

Serving punch were the honor guests' two sisters, Mrs. Verdery Odell and Miss Lillian Odell.

The honor guest was attractively dressed in a lovely green taffeta combined with lace.

Miss Lillian Odell wore a dainty frock of pink crepe de chine trimmed with red lace and French flowers.

Miss Verdery Odell was lovely in a frock of green taffeta.

Assisting Mrs. Akin in entertaining were Mrs. Edwin Alfriend and Mrs. Ronald Ransome.

Fifty guests were invited.

### Forney Wyly To Be Honored Sunday.

Forney Wyly, who leaves soon for New York to make his home, will be honored on Sunday afternoon when Mrs. Chaucery Smith will be hostess at 4 o'clock, at her home on West Eighth street.

The guests will include Miss Grace Goldsmith, Miss Sarah Selmon, Miss Mary Sadler, Mr. and Mrs. George Fletcher, Mr. Wyly, Henry Walker Bagley and Weston Hamilton.

Mr. and Mrs. George M. Fletcher will entertain for Mr. Wyly; the date to be announced later. The guests will include a few intimate friends.

### Mrs. Berthelett To Give Tea.

Mrs. Berthelett has issued invitations to a large afternoon tea in honor of her mother, Mrs. Myrtle

## Mrs. Davis Presented With Gifts at Y. W. C. A. Banquet

At the annual banquet of the Young Women's Christian association held last evening at the Atlanta Woman's club, Miss Elizabeth Gregg, in a speech of appreciation and love, presented Mrs. Archibald Davis, the retiring president, with a beautiful basket of flowers for the board of directors.

Miss Mary Phelps presented her with a pair of silver candlesticks from the business women of the association. Mrs. Ernest Kontz, chairman of finance committee, presented a basket of flowers to Mrs. Davis, who retires as treasurer after serving 11 years.

Mrs. Davis presided and the invocation was delivered by Dr. Richard Orme Fling.

Mrs. Callaway, chairman of the nominating committee, read the nominees for the board of directors. The following were elected to the board: Mrs. E. L. Bugg, Miss Elizabeth Gregg, Mrs. Ernest Kontz, Mrs. W. R. Prescott, Mrs. F. M. Robinson and Mrs. Julian Robinson. The new members elected are Mrs. Lee Ashcraft, Mrs. Alfred Newell and Miss Susie Walles.

The yearly report of the treasurer was given by Miss George K. Saunders. Report of the general secretary by Miss Irma E. Finley.

Speakers for the evening were: Frederick J. Paxson, F. O. Stone, Eugene R. Black and Colonel George M. Napier.

The industrial girls of the association sang their song, "Break Down Barriers," and the young business girls sang their song, "Our Quest," and all together they sang "Follow the Glean."

The committee on arrangements were: Miss Elizabeth Gregg, general chairman; Mrs. Clayton Callaway, menu; Mrs. Ernest Kontz, invitations; Mrs. W. R. Prescott, music; Mrs. Samuel Lumpkin, program.

The ladies present in the morning were: Mrs. D. B. Lewis, Mrs. R. P. Christian, Mrs. J. C. Gissom, Mrs. Don Burgess, Mrs. Guy Webb, Mrs. Joe Barnes, Mrs. M. H. George, Mrs. Homer George, Mrs. E. A. Kromer, Mrs. Charles Weeks, Mrs. P. A. Haden, Mrs. Myrick Clements, Mrs. John White, Mrs. D. C. Lawson, Mrs. J. R. Henderson, Mrs. W. A. Leake, Mrs. Walter Rogers, Mrs. J. M. Wadsworth, Mrs. R. C. Henderson, Mrs. Scott Candler, Mrs. John Montgomery, Mrs. W. A. Leake, Mrs. Charles Carter, Mrs. John Royal, Mrs. Bruce Hall, Mrs. W. E. Barton, Mrs. E. L. Gardner, Mrs. J. C. Leffly, Mrs. S. R. Christie, Mrs. J. E. Campbell, Mrs. Walton Bolo, Mrs. A. Campbell.

The ladies present in the morning were: Mrs. C. E. Partlow, Mrs. P. H. Jeter, Mrs. Wiley Andley, Mrs. Wm. Aiken, Miss Anita Stoner, Mrs. W. A. Leake, Mrs. Augustina Sams, Mrs. Charles Metz, Mrs. W. S. Young, Mrs. Boyd Sutton, Mrs. W. A. Omer, Mrs. Perry Gailard, Mrs. Emma Davis, Miss Mary Davis, Mrs. C. H. Fagan, Mrs. Anne E. Baxter, Miss Piddie Miller, Mrs. Morrison, Mrs. Leon O'Neal, Mrs. Ed Davis, Mrs. Donald Lindsay, Mrs. J. L. Shipp, Mrs. George M. Napier, Mrs. J. Leon Hoffman, Mrs. W. M. Raines, Mrs. Paul Smith, Mrs. Dan W. Sathorn, Miss Margaret Cotton, Mrs. Fred J. Hunter, Mrs. Corinne Hodges, Mrs. W. J. Seaward, Mrs. W. S. Ekin, Jr., Mrs. E. L. Adams, Mrs. J. Howell Green, Mrs. E. G. Jackson and Mrs. Ruth Brant.

Mrs. Wheat Williams assisted Mrs. Glauzier in entertaining.

T. Milton Ramey To Lecture Sunday.

Next Sunday afternoon at 5 o'clock in the chamber of commerce hall the Mental Science club will hear T. Milton Ramey, character analyst, on "How to Read People at Sight."

Following the lecture demonstrations in sight reading will be given. The general public is invited; no collections.

Pavilion Party To Compliment Children.

An outstanding social event of Saturday afternoon will be the beautiful party to be given in the Lucy Eliza pavilion in honor of the six hundred and three babies born in the pavilion, which is two years old. The decorations in flowers and ribbons will carry out the alumni colors of pink and blue.

A silver cup promised by Dr. H. W. Cox, president of Emory university, will be given to the baby who has made most progress during the year.

The sponsors are Mrs. John A. Manger, Mrs. Asa E. Candler, Jr., Mrs. William Candler, Mrs. C. H. Candler, Mrs. Henry Heinz, Mrs. Placide, Mrs. J. H. Backham, Mrs. George Knott, Mrs. Floyd Bridwell and Mrs. Thomas Johnson.

Mr. and Mrs. Johnson Are Honored.

Mrs. Pearl Moezel Gay entertained at a buffet supper Friday evening in compliment to Mr. and Mrs. Palmer Johnson, whose marriage was a recent event.

Beautiful spring flowers in vases and baskets formed the artistic decorations in the reception rooms.

Mrs. Gay wore a gown of green georgette.

Thirty guests were invited.

## DAILY CALENDAR OF SOCIAL EVENTS

Miss Martha Ginn, of Boston, Mass., who is the guest of Mrs. Lansing Bodeker at her home in Ansley Park, will be central figure at a bridge party this morning, at which Miss Nell Clayton will entertain at her home on The Prado.

Miss Ida Sadler, one of the season's loveliest debutantes, will be honored by Mr. and Mrs. Bruce Woodruff this evening at the Piedmont Driving club dinner-dance.

Tea-dance at the Atlanta Biltmore.

The marriage of Miss Lillian McClelland and Ross Johnson will take place at 8:30 o'clock at North Avenue Presbyterian church.

Dinner-dance at Piedmont Driving club.

the guest of Mr. and Mrs. George Merrick.

Charles Lordinas left Thursday for a few days' visit to Nashville.

Mrs. Alice Wallace, of New York, is the guest of her aunt, Mrs. E. M. Horine, en route to Miami.

Julian Barrett and Comer Howell left Tuesday for Palm Beach, Fla.

Miss Corday Rice will leave Sunday for Lakeland, Fla., where she will be the guest of Miss Elizabeth Putnam.

S. M. Norman, of Atlanta, has been among the guests during the past few days at the George Vanderbilt hotel, Asheville, N. C.

Mrs. Mary Ballenger, who has been visiting in Hickory, N. C., will return home Tuesday.

Mrs. Elizabeth Anderson, of Long Island, is the guest of Colonel and Mrs. Robert Peck.

Mr. and Mrs. J. D. Miller, of Forest Hills, L. I., and New York, are spending a few days with Mr. and Mrs. A. J. Miller, on Penn avenue, before leaving for Florida, Cuba and the Bahamas.

Mrs. Clarence W. Wall left Thursday for Mayfield, Ky., where she will be the guest of Miss Marion Hale for several weeks.

Mrs. John Lamb, of Richmond, Va., who is visiting her daughter, Mrs. Turner Jones, and Mrs. Harry Maxwell, of Trenton, N. J., the guest of Mrs. Orme Campbell, were honor guests at the informal luncheon at which Mrs. Neal Harris was hostess Friday at the Piedmont Driving club.

Mrs. Archibald P. Brantley, of Blackshear, is visiting her daughter, Mrs. Lawrence Willet, at her home on The Prado, in Ansley Park.

Mr. and Mrs. Claude W. Frederick and their daughter, Nancy, will leave Monday for Cuba where they will spend several weeks.

A cable has been received from Mr. and Mrs. Cator Woolford saying they have landed in Naples, and had a delightful voyage.

Mrs. R. E. O'Donnell and her niece, Miss Mary Grady, are motoring in Florida.

Judge and Mrs. George A. Slater, of Port Chester, New York, are at the Atlanta Biltmore for a short stay. Judge Slater is judge of the Westchester county court at Port Chester.

Sykes-Renk! Wedding Announced.

Augusta, Ga., February 6.—(Special.)—The marriage is announced of Miss Jane Teresa Sykes and Louis Allen Renk, which took place Friday night at the Aiken inn, in Aiken, S. C. The bride is the daughter of Mr. and Mrs. J. P. Sykes, of Augusta, and the groom the son of the late Mr. and Mrs. A. J. Renk, and is a prominent and substantial young business man.

## McClelland-Johnston Wedding Party Has Buffet Supper

Judge and Mrs. L. F. McClelland entertained at a buffet supper Friday evening at their home on St. Charles avenue, following the wedding rehearsal of their daughter, Miss Lillian McClelland, and Ross Johnston, whose marriage will take place this evening.

Quantities of palms, ferns and foliage plants were used in the decoration of the reception rooms.

Miss Gladys McClelland assisted her parents in entertaining. She wore a gown of crimson colored charmeuse trimmed in gold lace.

Mrs. McClelland's gown was fashioned of navy blue crepe, trimmed in French flowers.

The bride-elect wore an attractive gown of blue chenille trimmed in black fur.

The guests included members of the bridal party.

## "Pirates' Club" Has Lovely Informal Dance

"The Pirates' club," composed of a group of charming members of the younger set, entertained at an informal dancing party Friday evening at the home of Mrs. Frank Calloway.

These hostesses were: Misses Sarah Southernland, Virginia Turman, Boyce Loker, Helena Callaway, Josephine Carter, Florence Maudie, Eugenia Bridges, Frances Barnett, Mary Harvey, Esther Garrett, Florence Hewlett, Sarah Foote, Augusta Porter, Sarah Law, Lena Knox, Mary Mosely, Sarah Mendor, Martha Worth and Marion Smith.

The reception rooms were decorated with pine boughs and large placards bearing "Welcome to the White Skeleton." Skulls, crossbones, skeletons and old-fashioned swords adorned the side walls and mantels.

Assisting the young girls in entertaining were Mrs. Calloway and a group of her neighbors, including Mrs. Hugh Loker, Mrs. Rogers, Mrs. Stephen Barnett, Mrs. Sam Weyman and Mrs. Sam Hewlett.

Forty young boys were invited.

## Tech Fraternity Gives Dance At Capital City Club Friday

An interesting event of Friday evening assembling several hundred guests was the dance at the Capital City club, at which the Pi chapter, of Georgia Tech, and Alumni association, of Atlanta, of the Alpha Kappa Psi fraternity entertained.

The ballroom was beautifully decorated with spring foliage and colorful banners adorning the side walls. At one end of the room, suspended from the ceiling, was a large electric sign, modeled from the Alpha Kappa Psi fraternity insignia and arranged with gold and blue lights.

Warner's Aces furnished the program of dance music and the chaplains were Dr. and Mrs. M. L. Brittain, Dr. and Mrs. Vernon Skiles, Mr. and Mrs. Ollie George, Mr. and Mrs. Raymond Inglett, Mr. and Mrs. John Welch, Mrs. Charles Northern, Mrs. Ed Van Winkle.

The young girls present were: Misses Rebecca Ashcraft, Louise Arnold, Florence Eckford, Elizabeth Palmour, Fannie Kate Hollingsworth, Marion Wolff, Frances Penbody, Allene Harris, Mary Harris, Harriet Shelden, Mellic Zellers, Corday Rice, Josephine Douglas, Anne Spaulding, Cleona Bates, Louise Nelson, Edna Belle Raine, Katherine Raine, Nell Clayton, Emmie Montcomery, Caroline Cole, Virginia White, Ida Sadler, Emma Frances Brotherton, Rennie White, Susette Heath, Constance Cone, Mary McCarty, Mary Mosley, Callie Orme, Mildred Willford, Mary Tuller, Mary Knight, Edith Coleman, Caroline Brown, Josephine Hollis, Catherine Carter, Elizabeth Whitman, Irene Thomas, Inez Willingham, Dorothy Stiff, Elizabeth Little, Margaret Kemp, Ruth Osborne, Foy Yarbrough, Margaret Whitman.

The hosts were: D. D. Keller, Sam Murray, P. H. Pharr, Lewis Hawkins, W. B. Farnsworth, R. L. Ball, R. A. Betts, W. E. Booker, W. C. Brown, R. L. Chapman, R. M. Dilard, H. W. Fisch, J. W. Fitzpatrick, W. L. Gorry, J. H. Goble, J. E. Holaday, T. W. Hughes, Wingate Jackson, N. M. Lewis, H. C. Meeks, Ben R. Padgett, Jr., J. F. Bent, J. D. Sparks, Cecil Jameson, J. W. Marshall, J. W. Dulose. The following are pledges: J. M. Barrett, H. M. Bechnell, A. T. McNeil, E. B. Weatherly, George Butler.

Mrs. D. F. Stevenson Has Tea at Club.

Mrs. D. F. Stevenson, first vice president of the Atlanta Woman's club, entertained Friday afternoon at tea at the clubhouse, honoring Mrs. Norman Sharp, president of the club.

## Fifth District Executive Board Holds Session Here

Of general interest to club women was the executive board meeting of the fifth district of the Georgia Federation of Women's Clubs, at which Mrs. Spencer R. Atkinson was hostess in her Piedmont avenue home Friday afternoon.

At the invitation of the president, Mrs. H. G. Hastings, many of the state chairmen were present, each of whom discussed some phase of greater club work.

Especially stirring was the plea made by Miss Alice Baxter, state chairman of forestry, for cooperation in her department. Dr. Blanche G. Leveridge, ex-state chairman of literature, edited the support of the fifth district clubs in the promotion of literary interests as outlined in the suggested programs which have been submitted to all district presidents of the state.

Urgent attention was called to the importance and growth of women's interest in public health, child welfare and general industrial conditions by the state chairman of pub-

lic welfare, Mrs. R. K. Rambo. The anti-narcotic movement was ably represented by Mrs. J. Sprule Lyons, state chairman.

Mrs. W. B. Price-Smith presented enthusiastically the Tallulah Falls pilgrimage of which she is chairman of the district, and Miss Rosa Woodberry, parliamentarian, stressed the importance of the quinquennial which is to assemble in Washington.

All divisional and departmental reports showed a gratifying activity which, Mrs. Hastings stated, will be discussed in greater detail at the presidents' council, which meets next week in Kirkwood.

### WELCOME SERVICES AT FIRST M. E. CHURCH

Welcome services have been planned for next Sunday morning and night at the First Methodist church following the home visitation campaign of last week. Through letters

and personal visits a special invitation has been extended to strangers and visitors in the city and a general invitation is extended to all the public.

Leaders in this movement are particularly eager for all persons who have expressed a preference for the First Methodist church in the home visitation canvass to be present.

As special feature at both services a well-trained male quartet will sing. The following compose the quartet: Clifford Durham, first tenor; George Grant, second tenor; J. T. Modis first bass; Thomas Hoffman, second bass. Mrs. W. H. L. Nelms, director and organist.

### GEORGIA ALPHA CHAPTER HEADS HOLD BANQUET

Officers of the Georgia Alpha chapter of the Tau Beta Phi fraternity of the Georgia School of Technology gathered Friday night at a banquet at the Georgian Terrace.

Among those present were: Professor Theodore F. Dunn, honorary member of the Alpha chapter, who was one of the principal speakers; Dr. Marion L. Brittain, president of

Georgia Tech; Dr. John B. Crenshaw, president of the Tech chapter of the Phi Kappa Phi; Professor R. C. Matthews, secretary-treasurer of the Tau Beta Phi fraternity; Stephen B. Spitzer, past president of the Tau Beta Phi; and Champ DeSaussure, Jr., president of the fraternity.

### 20-Year-Old Girl Uses Shotgun To Kill Self

Lyerly, Ga., February 6.—(Special.)—Miss Clarissa Myrie, 20-year-old daughter of John Myrie, farmer, living near Jamestown, Ala., died four hours after she had emptied the contents of a shotgun belonging to her father into her body, giving as her reason for committing the act that she was without friends and life was not worth living.

The family is well known over this section.

She is survived by her father, one sister and three brothers.

## George C. Aid To Demonstrate Etching at Fine Arts Meeting

There will be a meeting of the Fine Arts club on Tuesday morning at 11 o'clock in the Georgian Terrace hotel.

By the presence of George C. Aid, famous etcher, who is the artist for this meeting, an unusual occasion is offered the members of the Fine Arts, as Mr. Aid will make an etching.

This demonstrating of an etching, following up the talk on the art of etching given before the Fine Arts club last summer by George Elmer Brown, will prove very interesting.

Mr. Aid will give demonstrations of the actual making of an etching, showing the method from the preparation of the copper plate to the pulling of it from the etching press.

In Europe, as well as in most of the large cities of America, Mr. Aid enjoys an enviable reputation as an etcher, and the Fine Arts club is fortunate in having him with them.

Mr. Aid is a member of the Association of American Etchers and has received numbers of medals and decorations. He is originally from Missouri and married a southern girl.

An interesting feature connected with the appearance of Mr. Aid will be the exhibition of a number of his etchings, the rest of the week at the Georgian Terrace hotel, which will be sponsored by the Atlanta Art association.

**Music Club To Meet Today.**

The Atlanta Junior Music club will hold its regular meeting today at 2:30 at Phillips and Crew hall. All information about the state contest at Barnesville will be given contestants and many other items of interest will be discussed. The chorus meets as usual at 1:30.

Mrs. Maybelle Wall, chairman of the program on Mendelssohn and Brahms, will give the members of the club a rare treat and arrangements are being made to seat the large audience expected. Non-members are always admitted on payment of the small fee of 25 cents.

A quartet from the Emory university glee club and the entire Emory university orchestra, directed by Dr. Malcolm Dewey, will assist Mrs. Wall with this program and as both of these organizations enjoy a well-deserved popularity in Atlanta as well in many other cities throughout the south, much interest has been aroused by the announcement of their appearance.

Dr. Dewey has established a reputation for the high standard maintained and gratifying results obtained under his direction for his organizations has gained for his excellent interpretations carefully accurate presentations.

The following program has been prepared by Mrs. Wall to illustrate the works of the composers to be studied:

1. Sketch of Mendelssohn and Brahms—Miss Mary Broughton.
2. Piano Solo—Hondo Capriccioso, Mendelssohn—Miss Mary Broughton.
3. (a) Beware, (b) Lullaby, Brahms. Selected quartet from Emory university glee club.
4. Piano solo—Scherzo in E Minor, Mendelssohn—Miss Ruth Dabney Smith.
5. Piano solo—Hungarian Dance, No. 7, Brahms—Miss Ardis Colby.
6. Violin solos. (a) Allegretto quasi Andante, Mendelssohn, (b) Waltz in A Flat, Brahms—Miss Ruth Dabney Smith.
7. Capriccio Brillante, Mendelssohn—Alton O. Steene, first piano; John Singer, second piano, and Emory University Orchestra.

**Interesting Pictures at Children's Matinee.**

"King of Wild Horses," the feature picture which the young people attending the Better Films matinee will enjoy to the utmost Saturday morning, deals with a real wild horse which roams the wilderness until espied by a cowboy who determines to capture and tame him. A wild chase of weeks ensued with the horse gaining increased respect for the cowboy.

**Ponce de Leon P-T. A. To Have Show Tonight.**

The Ponce de Leon Parent-Teacher association will sponsor a splendid show to be given tonight at 8 o'clock at the Senior High school.

It is anticipated that a record crowd will attend as this is one of the best shows ever given in Decatur.

**Crittendon Home To Be Given Baskets.**

The Florence Crittendon home will be the next beneficiary of the lovely basket of fruits and vegetables given by the farmers of the market each week, through the market committee of the Atlanta Woman's club, for some charitable institution.

Mrs. T. G. Delph, acting chairman of the committee, will have as her assistants for the coming week, the officers of the Atlanta Woman's club and the market committee members.

Mrs. Delph has many plans for bringing the benefits of the Municipal market before the women of Atlanta, and as the spring season begins, she will initiate several activities that will tend toward making the housewives better acquainted with the advantages of a place where everything she needs for food supply of the family may be obtained.

The market is well supplied at this time with all winter vegetables, fruits and a great variety of canned and preserved products from the farms of Georgia. Delicious fresh meats are on the market now, coming directly from the country estates, where special attention has been given to the preparation. Country sausage, pork, hams, backbones, pigfeet and every thing in the way of meats that is raised in our own state. The housekeepers are urged to visit the market to see for themselves what delicious edibles are on sale there at very reasonable prices.

At the suggestion of Mrs. Norman Sharp, a letter was sent Mr. Saunders, chairman of the sanitary committee, thanking him for his interest and cooperation in keeping the market sanitary.

**Social News From Marietta.**

Marietta, Ga., February 6.—Mrs. W. E. Benson and Mrs. D. C. Cole were joint hostesses at a bridge luncheon on Tuesday at the home of Mrs. Benson, on Whitlock avenue, complimenting Miss Virginia Boston, bride-elect, and Mrs. Morgan McNeil, Jr., and Mrs. Eugene McNeil, two recent brides.

Mrs. W. A. DaPre entertained the Wednesday bridge club at her home on Whitlock avenue.

Miss Sarah Patton left Tuesday for an extended visit to Miss Helen Way at Orlando, Fla. She will also visit Mrs. Daniel McLeod, at Cocoa, Fla., before returning home.

Mrs. E. P. Dobbs has returned home after spending a month with her daughter, Mrs. George Nichols, in New York.

Mrs. Henry Wyatt will leave Monday to visit her brother, Robert Seals, in Birmingham, Ala.

Dr. and Mrs. W. E. Benson left Wednesday to spend the remainder of the winter at Rockledge, Fla.

George Nichols of New York is visiting his mother, Mrs. Edgar Nichols, on Forest avenue.

Mrs. W. D. Pawley and little son, Billie, of Wilmington, Del., are visiting Mrs. E. P. Dobbs on McDonald street.

**TECH FRAT DANCE AT CAPITAL CITY CLUB**

Continued From Page 11.

and the officers as follows: Mrs. W. B. Price-Smith, second vice president; Mrs. W. F. Melton, recording secretary; Mrs. E. V. Carter, corresponding secretary; Mrs. Arlic Hazard, treasurer; Mrs. Eva Corrigue, assistant treasurer; Mrs. John R. Hornady, auditor.

Mrs. Stevens's guests were seated at a beautifully appointed table, centered with a basket of lovely spring flowers and surrounded with sprays of delicate ferns, artistically arranged. Attractive toasts were made by the different officers for the success of the present administration and a very delightful hour was enjoyed.

**Ralph Conover Given Stag Dinner.**

Ralph Conover was given a stag dinner on Wednesday evening by his mother, Mrs. E. J. Conover, at her home on Fayetteville road, Decatur.

Those present were Vincent Johnston, Stuart Sutton, John Laughlin, George Rusk, Ronald Lester, Charles Laughlin, Theron Strindling, Ray Ray, Lewis Newman, Charles Leber,

Paul Crutchfield, John Gould, Jr., and Ralph Conover.

### Miss Lemme Honored At Bridge-Tea.

A lovely event of Friday afternoon was the bridge-tea at which Miss Mildred Mason, entertained at her home on Ponce de Leon avenue, in honor of Miss Valada Lemme, of Evansville, the guest of Miss Caroline Holliday, on Myrtle street.

The lovely home was decorated with a profusion of spring flowers attractively arranged.

Mrs. W. S. Mason assisted her daughter in entertaining.

A number of intimate friends were invited.

### Miss Adams To Give Luncheon Today.

An interesting affair for today will be the luncheon at which Miss Constance Adams will be hostess at her home on East Sixteenth street.

The occasion will honor Miss Marion Tolle, who, with her parents, Mr. and Mrs. Claude Tolle, will leave next week to make her home in New York.

Following luncheon bridge will be played.

The guests will include eight intimate classmates of Miss Adams.

### Annual Valentine Ball at Driving Club.

The annual valentine dinner-dance will be given at the Piedmont Driving club on the evening of Friday, February 13.

Dinner will be served at 9 o'clock and those expecting to have the entire dinner served to them must be on time.

The committee from Atlanta addressed the meeting on the various phases of scout work, and John Candler talked on the practical side of scout craft.

Petition will be filed for a charter and the work of organization will proceed immediately, through a committee of Civilians composed of C. C. McCamy, Neil Hamilton and W. M. Mapp, with L. B. Lawton, Hubert Judd, Nelson Manly, Robert McCamy and Duval Williams as prospective scoutmasters.

# You Get 10 CUPS MORE From A Pound!

A test will show that a can of Morning Joy makes more cups of coffee to the pound, of equal strength, than competing brands. Every housewife can make this test herself if she wants to. It is very easy to do. But after hundreds of tests made by careful, skilled coffee men, and by domestic science experts, it has been proven conclusively that a can of Morning Joy gives 25% more coffee of equal strength than does the average coffee.

Try any one of the brands sold on the market and you will get something like 38 or 40 cups, and then try Morning Joy and you will get at least 50 cups of equal strength.

Thus while you might pay a little bit more for Morning Joy, you get more coffee and it is cheaper in the end.

### Aroma—Flavor—Strength

Don't forget, too, that all of the qualities that make a coffee good are found in Morning Joy. Specially prepared and blended in one of America's finest coffee packing plants, located in one of the world's great coffee markets—Morning Joy comes to you with all of its original richness and flavor. This is because it is packed in a vacuum can which is airtight and which will hold indefinitely the original qualities of the coffee. This is the reason Morning Joy Coffee retains its strength and you get more cups to the pound.

# Morning Joy COFFEE

"Truly the Aristocrat of Coffees"

**The Economical Coffee**

It pays to buy the best coffee. Use Morning Joy and not only will you get the finest coffee to be obtained but you will save money, because you get more cups to the pound. And think what wonderful coffee it is! Ask your grocer.

### MRS. WILHELMY SAVED BY FRIEND

Doctor Advised Operation Friend Said Try Lydia E. Pinkham's Vegetable Compound First

St. Paul, Minn.—"I was all run down from overwork and worry, had no appetite, could not sleep at night, and looked like a corpse. I have six children (five boys and one girl) and did not get any strength after my last baby was born. I was getting worse and thinner every day. The doctor said I had to go to the hospital, but this I could not do on account of my family. So I went to a friend of mine and told her what the doctor had told me and she said, 'Now do as I tell you. Try Lydia E. Pinkham's Vegetable Compound as I have done. It helped me.' So I started taking the Vegetable Compound and I noticed after the first few bottles that I felt considerably better. After taking 9 or 10 bottles I got over my fainting spells. Everybody who sees me now notices the great improvement in my health. I am gaining in weight and strength and am feeling fine. Eat well and sleep good nights."

Mrs. Mary WILHELMY, 309 Duke Street, St. Paul, Minnesota.

and the officers as follows: Mrs. W. B. Price-Smith, second vice president; Mrs. W. F. Melton, recording secretary; Mrs. E. V. Carter, corresponding secretary; Mrs. Arlic Hazard, treasurer; Mrs. Eva Corrigue, assistant treasurer; Mrs. John R. Hornady, auditor.

Mrs. Stevens's guests were seated at a beautifully appointed table, centered with a basket of lovely spring flowers and surrounded with sprays of delicate ferns, artistically arranged. Attractive toasts were made by the different officers for the success of the present administration and a very delightful hour was enjoyed.

## BODY OF YEAST KING TAKEN TO NEW YORK

Miami, Fla., February 6.—The body of Julius Fleischmann, millionaire yeast manufacturer, who died suddenly yesterday at Miami Beach while playing polo, was started for New York tonight in his private car "Middle Neck," accompanied by a party of friends.

Funeral services will be held in New York Monday morning, it was stated by H. B. Miller, vice president of the Fleischmann company, who was one of those accompanying the body, and on Monday afternoon the funeral party is to leave for Cincinnati. Services are due to be held there at noon Tuesday, and then the remains will be placed in the Fleischmann vault at Spring Grove cemetery beside those of Mr. Fleischmann's mother, Mrs. Charles Fleischmann, who died recently.

Informal services in memory of the millionaire philanthropist and sportsman were held late today under the palm trees on the lawn of his estate which was just being completed at Miami Beach. The Rev. E. A. King, pastor of Miami Beach Community church, spoke briefly on Mr. Fleischmann's sportsmanship and philanthropy and after the reading of King's "If I Were King," concluded the services with a prayer.

Polo players and other friends, including the Fleischmann house party, former Governor James M. Cox, of Ohio; Thomas Meighan, movie star; and stablemen and other employees around the estate complex, who attended the informal services. Afterwards, most of them came to Miami and took a last look at the body as it lay in an undertaking chapel here.

No attempt at formal funeral services was made, but little ceremony and no attempt at formality, for his friends said the man would not have liked it. The body, placed in a metallic casket lined with gray silk and covered by a blanket of ferns, roses and asters from the Flamingo Polo club, of which Mr. Fleischmann was a leading spirit, was carried to the private car.

The party traveled in Mr. Fleischmann's private car, with another Pullman for those who could not find space in the private car and a baggage car to care for trunks and suitcases. The three cars were attached directly behind the engine of Florida East Coast train No. 40, which left here at 7:10 o'clock tonight and which is due in Jacksonville at 8:10 o'clock tomorrow morning. At Jacksonville a special train has been ordered to take the party over the Atlantic Coast Line and into New York as quickly as it is possible to make the trip.

Mr. Fleischmann came to his death during a polo game yesterday at the Nautilus field of the Flamingo Polo club and the state board of health certificate of death stated it was due to "acute cardiac dilation."

"Hard play" was what brought on death, in the opinion of friends, who said that, despite Mr. Fleischmann's 53 years, he outplayed them, and got along on less sleep than most young men. He would dance until late at night, but arise early the next morning for boxing or tennis, play polo in the afternoon and then join his friends in a game of cards and later dance. The ability to snatch an hour's sleep when he found time on his yacht or elsewhere kept him going, they said, and he seemed to enjoy every minute of his life.

## SELECT YOUR OWN FISH

It is only fifteen minutes from the FULTON MARKET'S big ice box to your kitchen. If you will come down and select personally the kind of a fish you like, take it home with you, you will know that you are going to have a thoroughly satisfactory and economical meal.

## FULTON MARKET

Fish are OBLIGED to be good. They are received by express, packed in refrigerator cars, and after they are received they are handled in a way that absolutely insures their leaving the market in as good condition as when they were taken from the water.

The best of everything in sea food, poultry, fresh fruits, meats and vegetables.

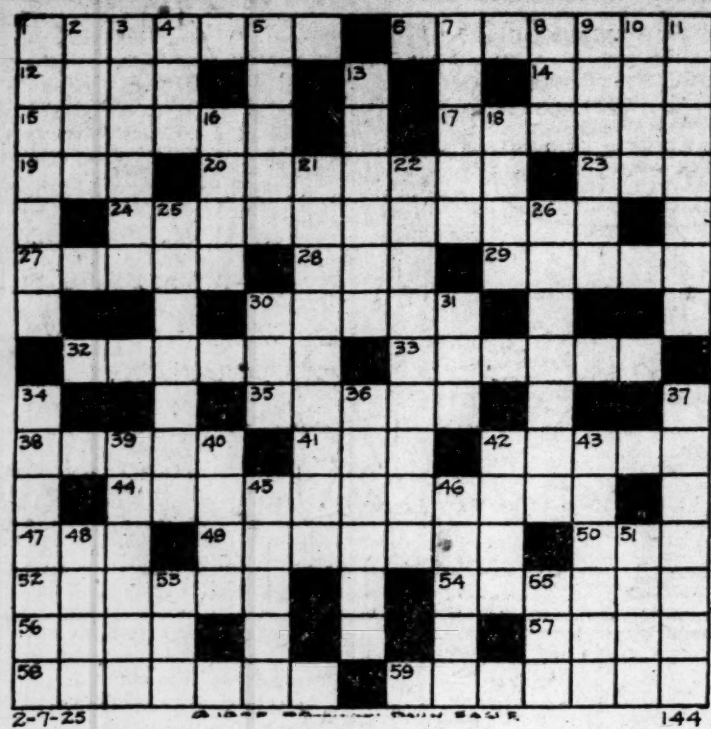

## COME IN

When you don't know just exactly what you want for dinner, come to the FULTON MARKET and look around. You are sure to find something that will be more than satisfactory. It may be oysters, some fancy meat, a nice chicken, a duck, but it is sure to be here.

## BEAUTY CHATS

BY EDNA K. FORBES.

**ENTER IODINE—FOR BEAUTY.**  
Except for Burne-Jones angels and classic figures, I have never seen a beautiful woman with a goitre. And even he idealized the thickness of the neck. Yet from certain parts of the country, along what the medical men now call the "goitre-belt," I receive many letters from readers possessing it threatened with goitres asking me what to do about it.

Of course the only thing that I can tell them is to go to their doctors. A few years ago even doctors could not tell them much, not as much as they can today, now that iodine has entered as a preventive and cure for one of the ugliest diseases that can attack a woman.

Iodine cures goitres they all say now. The progressive city of Rochester, N. Y., adds iodine to its drinking water for two weeks twice a year, and the number of cases of goitre among the school pupils, who have been under observation, has fallen 50 per cent since they first tried this theory out two years ago. It takes 16 pounds of sodium iodine a day for all the billions of gallons of water that city uses and costs one cent a head a year—to free them of this disfigurement. Physicians are giving minute doses of iodine to pregnant women who have been having children with goitre, and the children are born free of this trouble.

Iodine comes in sea water and sea weeds, and goitre is almost unknown among people who live near the sea. You breathe invigorating sea air, a little saltiness is sucked from your lips into your system, you eat fish from the sea, your body is bathed in sea water, your milk, your meat, comes from animals who have eaten grass full of the sea's salt and its iodine. It is the inland and the mountain folk where land and water have been washed free of iodine who suffer from goitre—and write me asking a cure.

Your doctor will give you sodium iodine as you should take it. But eat fish, and salt that has not been refined too white, and greens.

**Anxious Minnie**—You can do very little with your eyebrows until they have grown long enough to brush into a line.

**Mrs. G. C. D.**—As you need to reduce so many parts of your figure it would be much simpler for you to accomplish this through a general reduction. Your lines will be just as youthful as formerly after you lose five extra pounds you have at present.

**Polly Ann**—At 20 years of age, the lines in face and neck are easily eradicated. You may need a tonic or a change of some kind to build you up. Be sure to get out in the air every day, and do not let yourself slump or become dejected as you can do much to brace yourself if you breathe "pure air," and keep yourself very and wholesomely interested.

**Victor T.**—The preparations you mention are dyes in which a certain amount of henna is added. Henna produces but one color which is the one the name indicates, and that is not a dye at all.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns.

## THE CONSTITUTION'S PATTERNS

### A PRACTICAL APRON MODEL.

4405. No buttons or snap fasteners to be considered, easy to adjust, so easy to launder—and withal so comfortable and neat. An ideal apron indeed. The pattern as here shown was developed in figured percale, and trimmed with rick-rack braid. The style is good for all apron materials. In damask with pipings of satin or linen in a contrasting color, it will be very pleasing.

The pattern is cut in 4 sizes: Small, 34-36; medium, 38-40; large, 42-44; extra large, 46-48 inches bust measure. A medium size requires 4-5-8 yards of 36-inch material. The width at the foot is 21-4 yards.

Pattern mailed to any address on receipt of 10c in silver or stamps.

Send 12c in silver or stamps for our UP-TO-DATE SPRING AND SUMMER 1925 BOOK OF FASHIONS.

In ordering patterns, write name and address plainly on a sheet of paper. Order by number and include price in silver or stamps. Do not mail letter to The Constitution building in Atlanta, but address as follows: Fashion Department, The Constitution, 1388-89 Fulton St., Brooklyn, New York.

columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

## LAWYERS ARE INDICTED IN STOLEN BOND CASE

Little Rock, Ark., February 6.—Wallace Davis and Tom Poe, Little Rock attorneys, indicted today on charges of conspiracy and receiving and concealing government bonds, have made bond of \$20,000 each for their appearance for trial at the April term of the United States district court.

It is charged in one indictment that Tom Poe delivered \$20,000 in bonds to Joe McKinney, a former convict, on December 24, two weeks before McKinney's arrest.

The other indictment charges that Davis and Poe received and secreted \$15,000 in bonds, a part of the contents of one of the registered mail pouches taken during the Rondout train robbery. It is also alleged that the attorneys secreted the bonds or a part of them on July 15, which was two weeks after Herbert Holliday was arrested in Little Rock, and allowed them to remain in their possession until January 2.

Holliday employed Davis as his attorney after his arrest here in July and the said Davis to have been called into the case.

Both Poe and Davis issued statements tonight denying their guilt and expressing their belief that they would be acquitted of the charges against them.

### McFADDEN BANK BILL REPORTED TO SENATE

Washington, February 6.—The McFadden banking bill was reported today by the senate banking committee, after a session, which would have prevented state banks with branches from holding membership in the reserve system, had been stricken out.

National banks would be authorized to maintain branches acquired by conversion or consolidation and to establish further branches, under certain restrictions, subject to state laws.

## Y.W.C.A. Names 8 New Directors At Annual Meet

Election of eight new members to the board of directors marked the regular annual meeting of the Atlanta Y. W. C. A., held Friday night at the Atlanta Woman's club.

Those elected are: Mrs. Julian Robinson, Mrs. F. M. Robinson, Miss Elizabeth Gregg, Mrs. W. R. Prescott, Mrs. Alfred Newell, Miss Susie Wallies, Mrs. Lee Ashcraft and Mrs. B. L. Bugg.

The board will meet Monday at Y. W. C. A. headquarters, 21 West Baker street, for the purpose of electing officers for the ensuing year. Several prominent citizens addressed the meeting, including Eugene Black, F. O. Stone, Attorney General George M. Napier and Dr. R. O. Ellis.

Mrs. Archibald Davis, retiring president, was presented with a pair of silver candlesticks and a beautiful basket of flowers, as an expression of appreciation for her services.

Miss Genevieve Saunders, retiring treasurer, also was presented with flowers by members of the organization.

Miss Elizabeth Gregg presided at the meeting.

### FRENCH WHEAT BILL PASSED BY CHAMBER

Paris, February 6.—(By the Associated Press.)—The chamber of deputies today, by a vote of 332 to 228, adopted the government's wheat bill.

The government, before the measure was passed, consented to the inclusion in the bill of an article providing that it shall cease to be applicable August 15. It also accepted a few minor modifications, mostly of a nature to clarify certain passages in the bill.

Rialto Theater—"The Man Who Came Back."

Tudor Theater—"Thundering Hoofs."

Alamo No. 2—Patsy Ruth Miller in "My Man."

Palace Theater—"The Covered Wagon."

Neil O'Brien Minstrels.

(Twice Today at the Atlanta.)

The performance given by the Neil O'Brien minstrels is already the talk of the town. O'Brien has been playing an annual visit to Atlanta for the past 15 years or more, but it is the unanimous verdict that his show of this year is easily the best he has brought here. Practically a three-star combination, including O'Brien himself, Billy Beard, the party from the south, and "Sugarfoot" Gaffney, it presents a riot of fun from curtain rise to curtain fall. In addition, however, the company is particularly strong in its singing voices, and numerous novelties go to round out what is without question one of the most complete minstrel performances shown here in years. The local engagement will close with two performances at the Atlanta theater to-day at 2:30 and 8:30. If you love a real good minstrel show, don't miss this one.

"The Last Warning."

(At the Lyric.)

Atlanta has two more chances to enjoy the big thrill of the present stock season. It is a mystery comedy that keeps folks guessing right up to the last pistol shot and the curtain starts coming down for the last time. The entire company is putting out some showing of a high order. The closing performance is at 2:30 and 8:20 o'clock today. Next week the smartest farce comedy of the year, "The Whole Town's Talking," flashes onto the stage. It is an A. H. Woods production and regular theatergoers know that means something extra.

Special Show.

(At Loew's Grand.)

A special matinee, beginning at 10:45 o'clock, will be given at Loew's Grand theater this morning in order to give thousands who have been unable to get seats this week to see "Janice Meredith," the feature photograph, and the Loew vaudeville. The

doors will be opened promptly at 10:15 o'clock.

Today is the last day of the showing of "Janice Meredith," a photograph that has broken all records. Every seat and all available standing room in the large theater have been filled at every performance this week, and the same record-breaking crowds are expected today. In addition to the photograph, Loew's offers five acts of vaudeville, headed by Miss Quinn and the Sunnybrook orchestra in a great song and dance revue number.

Keith's Vaudeville.

(Keith's Forsyth.)

A Spanish Idyl, filled with sweet Spanish melodies and dances, is providing patrons of Keith's Forsyth theater the last three days of this week with a genuine musical treat as the headlining attraction of an altogether worthwhile program of vaudeville.

Also the program includes the act of Ernest Hatt, comedy king. Hall Ermine and Brice offer "A Night on Broadway" and George Denby and Ruth Dawn have a brilliant comedy in "The Melford Trio in their 'Rialto Novelty'."

"The Man Who Came Back."

(At the Rialto.)

George Ermine, one of the leading players in Ermine's show, is the attraction of "The Man Who Came Back," which is a brilliant comedy. His latest picture closes at the Rialto theater tonight.

A Movie-Mad Maid, a Fox Sunshine comedy.

"The Devil's Cargo."

(At Howard.)

Today will be the last chance for those desiring to see Paramount's latest picture, "The Devil's Cargo," starring Pauline Starke, Wallace Berry and William Collier, Jr. The Peerless Entertainers will be the stage attraction and several other novelties will make the program an attractive one.

Electric Production

Figures Show Increase

And Set New Record

Washington, February 6.—Production of electricity in the United States attained a new record last year, according to a report issued by the Federal Bureau of Investigation today. The report shows that the production of electricity in 1924 was 33.9 per cent over the output of 1923. The report also shows that the production of electricity in 1924 was 33.9 per cent over the output of 1923. The report also shows that the production of electricity in 1924 was 33.9 per cent over the output of 1923.

Continued increase in efficiency in the use of coal was shown by the reduction by one-fifth of a pound in coal used to generate a kilowatt hour of electricity as compared with 1923. It required 2.2 pounds of coal to produce one kilowatt hour of electricity in 1924, while use of coal increased 54.3 per cent and fuel oil 13.9 per cent.

Continued increase in efficiency in the use of coal was shown by the reduction by one-fifth of a pound in coal used to generate a kilowatt hour of electricity as compared with 1923.
